Details of activity:

Name of the Activity	Vigyanmanch (Application of Chemistry for Developing Pharmaceutical Excipients)	Activity No.	IQAC/2023-24/C2C/14
Day, Date	30 September 2023, Saturday	Department/ Committee/ Faculty	Pharmaceutical Chemistry
Venue	2 <sup>nd</sup> floor, Seminar Hall	Time	2-3 pm
Nature of activity	Indoor	Total no. of participants	65

Activity Information:

Objectives	To focus on the role of chemistry in developing Pharmaceutical Excipients
Methodology	Offline Seminar
Outcomes	The seminar advances knowledge in pharmaceutical chemistry, fosters professional connections, and highlights cutting-edge research and innovations.

## Applications of Chemistry in Developing Pharmaceutical Excipients

30<sup>th</sup> September 2023

2 pm -3 pm

Department of Pharmaceutical Chemistry and C2C cell organized Vidnyanmanch Session under the aegis of Industry Institute Interaction (IIIC) cell on the topic Applications of Chemistry in Developing Pharmaceutical Excipients. The speaker of the session was Mr. Jayesh Tilwani, Director Research and Development at Glowderma Lab. The session was attended by Second Year B Pharm and M Pharm students and few faculty members.

The session focused on the crucial role of chemistry in the development of pharmaceutical excipients. Excipients are inert substances that serve as carriers for the active pharmaceutical ingredients (APIs) in medication formulations. They ensure proper drug delivery, stability, and efficacy. This report summarizes the key points discussed during the session. The session included the information of water formula, its ionization, bioavailability, poor aqueous solubility of a APIs, techniques to improve their solubility. Sir discussed certain techniques like Particle Size Reduction, Solid Dispersion, Complexation, Solubilization Techniques, pH Adjustment, Salt Formation, Amorphous Formulation. The approach towards selection of APIs with wide range of physicochemical parameters would be solubility, partition coefficient, dissociation constant, hydrogen bonding, ionization of drug, redox potential, protein binding, complexation. By implementing these strategies, pharmaceutical companies can effectively navigate the complexities associated with APIs exhibiting diverse physicochemical properties, ultimately enabling the development of safe, effective, and commercially viable drug products.

When conducting research in chemistry, organizing search results and materials accurately is crucial for ensuring the reliability and relevance of the information gathered. Here is how you can approach it- Define Your Research Topic, Use Reliable Sources, Utilize Academic Databases, Evaluate Relevance and Quality, Verify Experimental Data and Results,

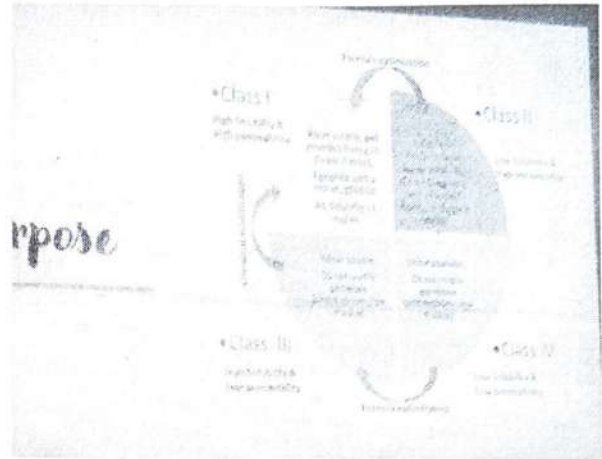

The session highlighted the indispensable role of chemistry in the development of pharmaceutical excipients. Understanding the chemical properties, interactions, and functionalities of excipients is essential for formulating safe, effective, and stable drug products. Ongoing research efforts continue to advance the field, leading to the development of innovative excipients with improved performance and biocompatibility.

Future research should focus on elucidating the molecular mechanisms underlying excipient-drug interactions and developing predictive models to optimize formulation design. Additionally, efforts to enhance the sustainability and biodegradability of excipients will contribute to environmentally friendly pharmaceutical manufacturing practices.

## IMPACT ANALYSIS FOR C2C VIDYANMANCH SESSION

Academic Year: 2023 - 2024

Date: 30/09/2023.

**A. Title of the activity: Applications of Chemistry for Developing Pharmaceutical Excipients**

**B. Objectives:**

1. Widen the knowledge of students by addressing the gaps in the curriculum.
2. Improving their scientific knowledge
3. Give opportunity to discuss advancements from field expert.

**C. Activity Outcomes**

Activity Outcome	The activity would contribute to the development of learners in the following ways:	Mapped PO	Level of Mapping
A01	Aided in improving basic knowledge associated with the profession of pharmacy	1	3
A02	Instilled organizational skills, time and resources management	2	2
A03	Developed Analytical thinking and problem-solving ability	3	3
A05	Updated the knowledge of modern tools/computational skills/software/advanced machineries	4	1
A04	Assisted in preparation of for future ventures/becoming industry ready	11	3

**D. Rate the Outcome:** This activity helped you to:

Q. No.	Question	AO mapped
1.	Improve my basic knowledge associated with the profession of pharmacy/ biomedical science/manufacturing practices	A01
2.	Develop organizational and resources management skills	A02
3.	Developed Analytical thinking and problem-solving ability	A03
4.	Increased my exposure/ knowledge of modern tools/computational skills/software/advanced machineries	A04
5.	Improved my knowledge of / introduced me to modern tools/computational skills/software/advanced machineries	A05

Venue	VES College Of Pharmacy , 302	Time	2 Hours
Nature of activity	Offline	Total no. of participants	89

Activity Information:

Objectives	Main objective of the event was to make society aware about financial literacy, accountability and budgeting as well as discussing the various investing and income sources and risks.
Methodology	On the occasion of international youth skills day NSS unit of VES COP arranged a session named Savy smarts. Speaker Prof. Amogh Gothoskar was invited to conduct a session for financial awareness. Every NSS as well as non-NSS students, teachers, non-teaching staff actively participated in the discussion and tried to get aware about new things. Students learned many things about finances, investments, etc
Outcomes	It was successful event where all NSS members as well as non NSS students, teachers ,non-teaching staff actively participated by asking queries and concerns ,the objective of spreading awareness was achieved .

## Media news details

Research and Development Cell of VES College of Pharmacy, Chembur, Mumbai organized a Seminar on the topic "Exploring the Green Past, Present and Future: Understanding the usage of Medical Cannabis in Ancient Civilizations and Application in Modern Medicine." on 21<sup>st</sup> February, 2024. Speakers: Ms. Priya Mishra, Founder: HEMPVATI and Mr. Sukkrit Goel, Founder: Cannazo India.

The event focused on growing recognition of the healing potential of Cannabis extracts. Despite Legal restrictions, cannabinoids and other compounds from hemp have a long and extensive history of safe use in humans. Indeed, Medicinal Cannabis has shown promise in alleviating symptoms for various conditions like Cancer, Rheumatoid Arthritis, Epilepsy, etc.

The event was coordinated by Dr. Harsha Kathpalia under the guidance of Dr. Supriya Shidhaye. The success of the event can be attributed to the speakers for delivering such an informative session that focused on how cannabis can be a game changer in the treatment of real-world health problems faced by countless individuals. Through this session audience learnt about various uses and perspectives behind use of medical cannabis. The event witnessed a high participation from students, faculty and also by people who actually got cured of their cancer by prescription based therapy with Cannabis. A big thank you to Ms. Priya Mishra and Mr. Sukkrit Goel to enlighten us with this evolving field of medical Cannabis.

### IQAC ACTIVITY No: IQAC/23-24/QA

#### Details of activity:

<b>Name of the Activity</b>	One day workshop and hands-on training on vertical electrophoresis, Western Blot and Gel Doc Apparatus	<b>Activity No.</b>	IQAC/23-24/QA/
<b>Day, Date</b>	16 <sup>th</sup> April, 2024	<b>Department/ Committee/Faculty</b>	<b>Quality Assurance Department</b>
<b>Venue</b>	Biotechnology Lab	<b>Time</b>	<b>10:00 am to 5:00 pm</b>
<b>Nature of activity</b>	Hands-on Workshop	<b>Total no. of participants</b>	<b>16</b>

#### Activity Information:

<b>Objectives</b>	<ol style="list-style-type: none"><li>1. To provide participants with practical knowledge on the installation process of Vertical Electrophoresis, Western Blot, and Gel-Doc systems, ensuring their proper setup and functionality</li><li>2. To offer comprehensive demonstrations of Vertical Electrophoresis, Western Blot, and Gel-Doc systems, elucidating their operational procedures and key functionalities</li><li>3. To facilitate hands-on training sessions enabling participants to conduct experiments utilizing Vertical Electrophoresis, Western Blot, and Gel-Doc systems. This includes activities such as DNA isolation from onion samples, separation of proteins using BSA (Bovine Serum Albumin), and the transfer of separated proteins using western blot</li></ol>
<b>Methodology</b>	Combining demonstrations, hands-on instrument handling, and theory explanations by resource persons to ensure complete learning.

#### Report:

The International Yoga Day was celebrated by Vivekanand Education Society College of Pharmacy by following the Common Yoga protocol provided by the Ministry of Ayush. The session was conducted by Yoga Instructor, Dr. Supriya Shidhaye Principal of the institute who has completed Diploma in Yoga education, YCB level 3 certified Teacher, Ministry of Ayush and demonstrator, Dr. Vaishali Jadhav working as Assistant Professor and is Diploma in Yoga education

The theme for International Yoga Day 2024 was "Yoga for Self and Society". The importance of practising yoga every day and Asthanga yoga was very well explained by Dr. Supriya Shidhaye madam. The session constituted of prayer followed by loosening practices, Asanas, Surya Namasker, Pranayama, Shavasana and Santih patha.

In detail, asanas were conducted in sitting postures, standing postures, supine postures and prone postures. In Pranayama, Anuloma Viloma, Sitali and Bhramari were conducted. The session was conducted in hybrid mode.

The session was very beneficial to all the sadhakas as they experienced the relaxation of mind and body.
