

## **Criteria 1- Curricular Aspects**

### **Key Indicator 1.3 - Curriculum Enrichment**

#### **1.3.3 - Percentage of students undertaking project work/field work/ internships**

##### **DVV Query**

Kindly provide

- 1) List of students undertaking the field projects / internship program-wise in the last completed academic year along with the details of title, place of work etc.
- 2) Internship completion certificate / project work completion certificate from the organization where internship / project was completed along with the duration.
- 3) Report of the field work / sample photographs of the field work / permission letter only for field work from the competent authority

##### **DVV Response**

The required documents are attached below.

## **INDEX**

<b>Sr. No.</b>	<b>Particulars</b>	<b>Page No.</b>
1.	List of students undertaking the field projects / internship program-wise in the last completed academic year along with the details of title, place of work etc.	2
2.	Internship completion certificate / project work completion certificate from the organization where internship / project was completed along with the duration.	16
3.	Report of the field work / sample photographs of the field work / permission letter only for field work from the competent authority	104

Sir,

I am sending below a list of students registered through your College for the Ph. D. (Tech.) degree showing registration number assigned to each of them against the name of respective students. You are requested to bring the registration number assigned to them to the notice of the students concerned and instruct them to quote the said numbers invariably in connection with any correspondence with the University.

Sr. No	Name of the Candidate	Subject	Registration No. & Date
1	Smt. Yadav G. S. A.	Ph.D./ Pharmaceutics	322 / 22-07-2021
2	Smt. Wani R. D. S.	Ph.D./ Pharmaceutical Chemistry	323 / 29-07-2021

Yours faithfully

UG PROJECT (Survey based)

FYBPharm Sem II

EVS based survey

The survey-based UG project is an initiative undertaken by VESOP for the past three years.

This UG project is given to students of First Year B.Pharm.

Under this activity, survey questionnaires encompassing various environmental aspects are designed by activity coordinators. The target area to undertake the designed survey is also selected by activity coordinators. Each student of F.Y.B.Pharm has to take the survey by asking enlisted questions to the target population (Minimum 5 people). The survey is analyzed based on the answers given by the target population and a report is generated.

This survey-based activity serves as the basis for one of the methods of literature survey which will help to inculcate research perspective in students. Being a preliminary step towards research-based projects, the activity is suitable for students of F.Y.B.Pharm under which students will learn to communicate the objective and scope of the survey to participants. Students will also learn to achieve the assigned number of target participants and resolve the queries raised by survey participants. At the end of the activity, students will become more aware of concerns regarding environmental issues and will be encouraged to take steps towards resolving the same.

The findings of the survey are directly correlated to one of the weekly mapping POs.

Name and Signature of Activity Coordinator:

1. Mr. Ojaskumar Agrawal | EVS Subject and Activity Incharge | VESOP
2. Ms. Riya Patra | Students Coordinator | VESOP
3. Ms. Ekta Sharma | Students Coordinator | VESOP

REPORT ON UG PROJECT (Survey based)

2020 21

F.Y.B.Pharm (Div A and Div B)

Total Response collected: 401

Following are the conclusions drawn based on the surveys taken by students:

59.6% of people claim that their surrounding is clean.

40.4% of people claim that their surrounding is not so clean.

60.1% of people are satisfied by the garbage disposal system in their surroundings.

39.9% of people are not satisfied with the garbage disposal system in their surroundings.

63.8% of people feel that garbage collection and segregation is frequent in their area.

36.2% of people feel that garbage collection and segregation is not so frequent in their area.

93.5% of people are aware of the diseases spread by unhygienic conditions.

6.5% of people need to be aware of the diseases spread by unhygienic conditions.

6% of people agree that they are not very involved when it comes to keeping their surroundings clean.

94% of people agree that they are involved when it comes to keeping their surroundings clean.

71.7% of people agree that they have a proper drainage system in their area.

### IMPACT ANALYSIS FOR UG PROJECT (SURVEY BASED)

Academic Year: 2020-21

Date: 1.6.2021

A. Title of the activity: UG Project (Survey Based)

B. Objective:

To introduce 'Survey' as a method of research which helps to uncover answers to specific questions in an unbiased manner.

C. Activity Outcomes:

	Upon completion of this activity learners would:	Mapped PO	Level of Mapping
A01.	Be able to frame appropriate questionnaire on specific topic	1	3
A02.	Be able to communicate with survey participants in professional manner and Be more aware about the role of pharmacist in society	6	3
		7	2
		8	3
		9	3
		6	2
A03.	Be able to solve the queries of survey participants	3	3
A04.	Be trained more on time management and target completion	2	3

D. Rate the Outcome: This survey based project helped you to

Q. No.	Question	AO mapped
1.	Explain rationale behind inclusion of each of the question in the questionnaire, to the survey participants.	A01
2.	Communicate the objective and scope of the survey to the participants.	A02
3.	Resolve the queries raised by survey participants.	A03
4.	To achieve the assigned number of participants.	A04
5.	Become aware about my duty towards society as a pharmacy professional.	A02

## TRAINING & INTERNSHIP PROGRAM IN ASSOCIATION WITH SPRINGFEST IIT KHARAGPUR

DATE: 06<sup>th</sup> March 2021

### TO WHOM IT MAY CONCERN

This is to certify that Smruti Ganesh Kadam, a student of Vivekanand college of pharmacy, Mumbai had registered for Training and Internship Program 2021 with Springfest, IIT Kharagpur conducted by Ethical Edufabrica Pvt. Ltd. from 30th January to 25th February 2021. As a part of the Training and Internship program, the candidate was required to undertake a project showcasing the aspects of the chosen training program and as a criteria towards finishing the internship.

So hereby with this letter, we acknowledge that the student has done the project on the topic of "Preparation and evaluation of captopril loaded gastro-retentive zein based porous floating tablets" as a part of the Internship on "VACCINE TECHNOLOGY" and the project has exhibited the student's ability and skill in adapting the training structure into its practical nature and focusing on the core elements of the training. The Project was satisfactory and had catered to all the key briefs handed to the student as an outline for the project.

The candidate during internship with us has shown diligence and perseverance adhering to the internship protocols set by the company and made sure that the given tasks were handled and performed with great outcome.

We wish the candidate all the very best for the future.

Dear Aishwarya,

This has reference to your application and subsequent interview you had with us. We are pleased to appoint you as an **Intern – Pharma** based out of Kalina, Mumbai.

You will be paid ₹ 7,500/- (INR Seven Thousand Five Hundred Only) per month as a stipend.

Following are the terms for your internship assignment:

1. The term will be for 6 (Six) months commencing from January 07, 2021 to June 30, 2021. Continuation of the internship after this period will be discussed and if found mutually satisfactory, may be extended by the company.
2. This internship can be terminated before its expiry by either side by giving one month's notice in writing or one month's fee in lieu thereof.
3. This agreement entered between you and the Company is specifically for rendering assistance as stated above.
4. In your abovementioned role, you will be reporting to Mr. Prajal Pandhare, Asst. Manager – Application Development.
5. It is expressly understood and agreed between us that you shall not be deemed to be an employee of the Company for all legal purposes and/or any other purpose. The fee payable to you shall not be treated as wage/ remuneration for the purpose of law or any other purpose.
6. It is expressly understood and agreed that you shall not be eligible for, nor entitled to any of the service conditions, benefits, amenities, facilities and the like applicable to the regular employees of the Company.
7. You will work full time for tendering the above-mentioned services at IMCD INDIA PRIVATE LIMITED, Dani Corporate Park, Dani Compound, Vidyanagar Marg, Santacruz (E), Mumbai, MH. Pin.: 400 098.

Dear Aparna

Please find here below the link to join the training on Thursday June 24 2021.

Request you to share it with your students and faculty. The names you are yet to share with please share latest by tomorrow.

Is your principal or senior going to join us then please share the names and designation with me for my welcome address.

Best regards

Leena

### Industrial Visit Report A.Y 2020-21

#### PROGRAM COMMITTEE

#### Details of activity:

Name of the Activity	Visit to ACG Group		
Day, Date	Friday 24-06-2021	Department/ Committee/Faculty	
Venue	Online Microsoft Teams	Time	11:30am to 1:00 pm
Nature of activity	Field work	Total no. of participants	164

#### Activity Information:

Objectives	1. Visit to pharmaceutical manufacturing company 2. to understand the process behind manufacturing and packaging of pharmaceuticals
Outcomes	The activity correlated to course Students were be able to 1. Understand the structure and functioning of a pharmaceutical company 2. Learnt the working of latest instrument used for manufacturing and packaging of capsule dosage form 3. Visualize the application of theoretical knowledge and helped in experiential learning

#### PROOFS & DOCUMENTS ATTACHED (Tick mark the proofs attached):

Benefits that will be for overtime are:

1. Increased uptime due to predictive maintenance
2. Preventive maintenance planning
3. Forecast spares requirements
4. Data-driven overall equipment efficiency

ACG Smart Connected Maturity Model:

Phases	Time Period	Objective
1: Connectivity and Visualization	0-3 months	Connect, Remote access and Visualization
2: Capturing Process Knowledge	6-8 months	Capture learning
3: Predictive Maintenance	8-12 months	Improved Operating Equipment Efficiency (OEE), AR platform
4: Predictive Quality	2-3 years	Improved OEE (Quality), Transfer Learning, Predicting Failure, TCO,
5: Prescriptive Automation	3-4 years	Self-Diagnosis and Reporting, Regulatory Compliance, OTA updates

## ADVANCED CENTRE FOR TREATMENT, RESEARCH AND EDUCATION IN CANCER (ACTREC) OPEN DAY 2020 (online)

**Date of conduction:** 31 December, 2020

**Time of conduction:** 12:00pm-1:15pm

**Mode of conduction:** ACTREC official website

**Location of centre:** Kharghar, Navi Mumbai.

**Organizer:** ACTREC

The virtual tour to ACTREC laboratories made us witness the actual functioning of research lab and high end facility of research equipments.

Dr. Satish Munnoli, Officer In-charge - Scope cell enlightened us about their aim behind this online visit to their centre. He gave us an overview of many research laboratories and facilities including experiences of researchers in the campus.

Dr. Prasanna Venkatrman, Deputy Director of Cancer Research Institute and Dr. Abhijeet De, Principal investigator and convenor of academic committee spoke about the history of their centre and gave us a brief overview of it's mission and activities.

ACTREC is a research campus of Tata memorial centre (TMC) and is affiliated by Unit of department of atomic energy by Government of India. ACTREC offers Phd in health and life sciences and it conducts various national and international meetings, sessions and conferences related to cancer. It focuses on finiding reasons and solutions to solve cancer related mysteries.

ACTREC also provides service helpline to quit tobacco. This helpline tells alot about methods of quitting tobacco.

Prof. Rajesh Dixit, Director Centre for Cancer Epidemiology discussed the public health relation and population genetic research. He focussed mainly on identifying the burden of Cancer in India, it's prevalence of risk factor and policy development.

Dr. Navin Khattry, Deputy Director enlightened us about the 3 major disciplines- surgical oncology, medical oncology and radiation oncology. All these disciplines are followed to ensure

Created by 2JPEG | www.2jpeg.com

that the patients are treated with the best available facility. Since 2007, more than 750-800 transplants are been carried out in the largest centre of the country.

Dr. Arvind Ingle, Officer In-charge of lab Animal facility at ACTREC discussed alot regarding the use of animals in research. He discussed the dimensions required for keeping animals, it's storage conditions and protocols. He showed us rat breeding colony, different strains of rat and hamster, etc

Tumor Immunology group works in a lab which focuses on understanding reasons for immune dysfunction and also manages to learn stem cell role, tissue regeneration and repair, etc. Bhattacharya lab works on an organelle biogenesis, vesicular trafficking.

Chillakapati lab uses Raman Spectroscopy for diagnosis of oral and cervical Cancer. They discussed the principle behind raman spectroscopy and it's application. They also demonstrated it's working.

Dr. Sanjeev Waghmare lab tries to understand molecular signal network behind tight regulation and maintenance of stem cells by using skin as a model. Biology of brain tumor, epigenetics are also studied at this centre.

Dr. Sudeep Gupta, Professor of Medical Oncology, Director TMC shared their vision of foccusing on high quality research in causes, progression and treatment of Cancer. They also believe in achieving good quality Cancer care. Challenges in Cancer therapy was also discussed which included the resistance to anti-cancer drug and tumor variability.

Dr., Prassana demonstrated the loading of agarose gel. She also demonstrated the cloning and protein purification by affinity chromatography. Mr. Sashi Dolas, Scientific Officer demonstrated the mass spectrometers instrumentation and application. They covered the steps to follow and precautions to take while using spectrometers.

Data analysis was also discussed in this tour. They gave us a demonstration on how to get results from data and how to use the software. A detailed demonstration of Western blotting technique was given by Teni lab. They covered each and every pointbright from sample preparation to transferring protein on membrane. They also taught us how to get a specific protein from this technique by using primary and secondary antibodies.

Alot of researchers from various lab gave us an insight of the work they do. Their main focus is to find a novel treatment therapy that increases the chance of Cancer patient survival.

## Conclusion:

The virtual tour to ACTREC, Navi Mumbai, was a great opportunity for us to experience the working of various labs in Cancer research. We learned a lot through various demonstrations of equipment and technique involved in Cancer research.

This opportunity gave me an insight on cancer research. Such visits can surely motivate many students to pursue research as a career option.

the use of animals in research. He discussed the dimensions required for keeping animals, its storage conditions and protocols. He showed us rat breeding colony, different strains of rat and hamster, etc

Tumor Immunology group works in a lab which focuses on understanding reasons for immune dysfunction and also manages to learn stem cell role, tissue regeneration and repair, etc. Bhattacharya lab works on an organelle biogenesis, vesicular trafficking.

Chillakapati lab uses Raman Spectroscopy for diagnosis of oral and cervical Cancer. They discussed the principle behind raman spectroscopy and its application. They also demonstrated it working.

Dr. Sanjeev Waghmare lab tries to understand the molecular signal network behind tight regulation and maintenance of stem cells by using skin as a model. Biology of brain tumor, epigenetics are also studied at this centre.

Dr. Sudeep Gupta, Professor of Medical Oncology, Director TMC shared their vision of focusing on high quality research in causes, progression and treatment of Cancer. They also believe in achieving good quality Cancer care. Challenges in Cancer therapy were also discussed which included the resistance to anti-cancer drug and tumor variability.

Dr. Prassana demonstrated the loading of agarose gel. She also demonstrated the cloning and protein purification by affinity chromatography. Mr. Sashi Dolas, Scientific Officer demonstrated the mass spectrometers instrumentation and application. They covered the steps to follow and precautions to take while using spectrometers.

Data analysis was also discussed in this tour. They gave us a demonstration on how to get results from data and how to use the software. A detailed demonstration of Western blotting technique was given by Teni lab. They covered each and every point from sample preparation to transferring protein on the membrane. They also taught us how to get a specific protein from this technique by using primary and secondary antibodies.

Alot of researchers from various labs gave us an insight of the work they do. Their main focus is to find a novel treatment therapy that increases the chance of Cancer patient survival.

#### Conclusion:

The virtual tour to ACTREC, Navi Mumbai, was a great opportunity for us to experience the working of various labs in Cancer research. We learned a lot through various demonstrations of equipment and techniques involved in Cancer research. This opportunity gave me an insight on cancer research. Such visits can surely motivate many students to pursue research as a career option.

Industrial Visit Report A.Y 2020-21

### PROGRAM COMMITTEE

Details of activity:

Name of the Activity	Visit to Anchrom Laboratories		
Day, Date	Friday 04-06-2021	Department/ Committee/Faculty	
Venue	Online	Time	11:30am to 1:00 pm
Nature of activity	Field work	Total no. of participants	

Activity Information:

Objectives	1. Visit to equipment manufacturing company 2. to understand the process behind development, validation and use of analytical instrument
Outcomes	The activity correlated to course Students were be able to 1. Understand the significance and functioning of a HPTLC instruments 2. Observed the working of latest instrument in analytical chemistry field 3. Visualize the application of theoretical knowledge and helped in experiential learning

Description: Webinar co-hosted with "VES College of Pharmacy, Mumbai"

NOTE\*\*\* PLEASE READ THE BELOW INSTRUCTIONS CAREFULLY BEFORE PROCEEDING WITH THE REGISTRATION.

- 1) Please register from your Email to login for the webinar. Registered participants can login only from one device at a time.
- 2) Please mention your Full Name while registering. (This name will be used to prepare the "Attendance Certificates". No changes will be accepted later).
- 3) "DO NOT" login with Number and Phone Model Names, such entries will not be provided with "Attendance Certificates", even if valid Email ID is present.
- 4) Multiple login using same ID will be removed from the webinar. (e.g. same ID of user being used by multiple users).
- 5) "Attendance Certificates" will be issued only to those who attend the full session.
- 6) "Attendance Certificates" will be provided in a week.

## PREFACE

I, Ms. Ankita Rai of T.Y B.Pharm (Div-A), seat number 63221, have attended an online industrial training at Anchrom laboratories located at Mulund.

I would like to thank Mr. Amit Palande (Application Chemist), the Principal, Dr. (Mrs.) Supriya Shidhaye and our class co-coordinators Dr. Anand Chintakrindi (Div A) and Mrs. Vidhi Bhatia (Div B) for this valuable opportunity.

## Introduction to Anchrom

- Anchrom Enterprises (I) Pvt. Ltd. Is one of India's oldest companies in analytical instruments supply. Being founded by a technocrat, Anchrom created a niche for itself in the Thin Layer Chromatography (TLC) technique which later became High Performance Thin Layer Chromatography (HPTLC).
- Anchrom is dedicated to the technique of TLC and HPTLC since inception i.e. 1978 which is ably supported by their Principals M/s CAMAG of Switzerland and by their India-specific HPTLC Application Research Laboratory established in 1989. The world's first, new generation "HPTLC- PRO" was installed in their lab in 2019. As a "Voluntary" Corporate Social Responsibility, they offer free training on HPTLC and support researchers with subsidised analysis. Anchrom is proud to be "Technologists, not Traders!"
- This lab today occupies almost 1800 sq.ft. space, has 13 analysts and all the latest CAMAG software and instruments. This lab enables everyone to evaluate HPTLC, CAMAG and Anchrom before they decide to buy HPTLC. This lab is the reason why CAMAG-Anchrom has had more than 95% share of the Indian market for decades. Free-training on the latest CAMAG HPTLC has been given by them since 1994 to post-graduate and Ph.D. students, their teachers and government lab employees.
- New method development is their forte and commercial sample analysis is not done by them. Concerned persons are welcome to be present during their analysis. They have analysed > 900 different substances, analysed > 12,000 samples and trained free of charge, > 5000 analysts. Anchrom intends to be the world leader in routine HPTLC applications. Another concrete step in that direction is the installation of the latest "CAMAG PRO" HPTLC system in November 2019. It is the world's first installation outside CAMAG.

✓

## Conclusion

The online internship at Anchrom laboratories was an enriching experience. Even though it was online all videos about working and use of every equipment were taught. Even a full fledged virtual tour was also given, to provide insight. I learned HPTLC and it's applications in detail. This opportunity gave me an insight into Analytical departments of a pharmaceutical laboratory. It has overall nurtured in me a spark to develop a professional outlook towards the work and profession.

### C2C Activity Report A.Y 2021-22

#### C2C DEPARTMENT/ COMMITTEE/ FACULTY

IQAC ACTIVITY No: (To be included from A.Y. 21-22)

#### Details of activity:

Name of the Activity	Demo of GastroPlus	Activity No.	
Day, Date	17/7/2021	Department/ Committee/Faculty	C2C/ Dr. Neha Chhabra
Venue	Online	Time	10 a.m.-12 noon
Nature of activity	Indoor/Outdoor (Tick mark appropriate)	Total no. of participants	118

#### Activity Information:

Objectives	The give demonstration of gastro plus software to students and faculty members
Methodology	The various applications of this simulation software were demonstrated step-by-step using screenshots. The interactive questions and answers session gathered the interest of the budding researchers
Outcomes	<p>The session enlightened the students in alignment with our programme outcomes mentioned below:</p> <ul style="list-style-type: none"> <li>Pharmacy Knowledge – Possess knowledge and comprehension of the core and basic knowledge associated with the profession of pharmacy, including biomedical sciences; pharmaceutical sciences; behavioral, social, and administrative pharmacy sciences; and manufacturing practices.</li> <li>Planning abilities – Demonstrate effective planning abilities including time management, resource management, delegation skills and organizational skills. Develop and implement plans and organize work to meet deadlines.</li> <li>Problem Analysis – Utilize the principles of scientific enquiry, thinking analytically, clearly and critically, while solving problems and making decisions during daily practice. Find, analyze, evaluate and apply information systematically and shall make defensible decisions.</li> </ul>

**Affiliation: Senior Technical Assistant (IDEMI, Sion, Mumbai)**

### Background:

IPR allows a startup or a researcher to compete effectively against large companies after patenting its invention. If a startup has a unique unpatented invention, larger rivals can easily copy, manufacture, and market it, effectively negating the startup's effort to create its invention. MoE's focus on creating and strengthening the culture of innovation and entrepreneurship ecosystem contributes to organization of such sessions for the students.

### Objective:

The objective was to provide first-hand knowledge and information on Intellectual Property Right Support Services to the students. The IDEMI's Patent facilitation center provides assistance to the MSME's and start-ups.

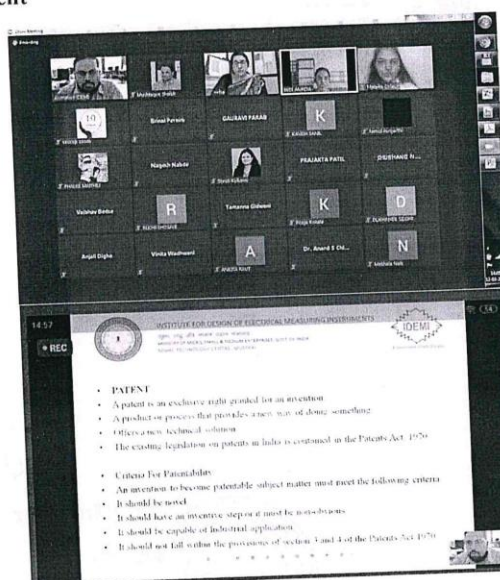

### Benefit in terms of learning/Skill/Knowledge obtained:

interactive session on IPR, copyrights, trademarks, geographical indications, industrial design and patents.

### Details /MoM

1. The students were introduced to IDEMI, a subunit of the Ministry of micro, small & medium enterprises, Government of India.
2. The students were explained the importance of timely applying for trademarks, copyrights and patents for Start-ups with examples
3. The life-cycle of a patent, loyalty, its revision and infringement were explained.
4. Q&A session was conducted and active participation was seen

Hello Dr. Bhatia,

While visit to the premises is not possible, I will be able to provide latest photographs of the R & D facility during the online interactions. I can keep this session on 11<sup>th</sup> June from 3.0 to 4.0 PM. I prefer the teams or webex platform as Zoom is not accessible from my laptop. Let me know your thoughts so I will block my calendar accordingly.

Best Regards,

Kedar V. Chikhalikar

Dear madam,

Kindly make teams link for online session of Lubrizol and send to Kedar sir, myself, Neha madam and ty b Pharm students. E mail of Kedar sir is there in d forwarded message.

Thanks and regards

Mrs Vidhi Bhatia

To: Vidhi Bhatia <vidhi.bhatia@ves.ac.in>

Hello Dr. Bhatia,

While visit to the premises is not possible. I will be able to provide latest photographs of the R & D facility during the online interactions. I can keep this session on 11<sup>th</sup> June from 3.0 to 4.0 PM. I prefer the teams or webex platform as Zoom is not accessible from my laptop. Let me know your thoughts so I will block my calendar accordingly.

Best Regards,

**Kedar V. Chikhalikar**

**Subject:** [EXTERNAL] Online internship for the students of VES College of Pharmacy

Dear Sir,

GREETINGS FROM VES COLLEGE OF PHARMACY !!

Thanks a lot for conducting online sessions for our students last year, Kind request to again conduct virtual online training for our students in the month of June. It would be great if you can show your manufacturing premises to the students so that they can understand the industrial operations in a better way, preferable dates are 10th and 11th June, kindly confirm your availability.

thanks and Best Regards

Mrs Vidhi Bhatia

Assistant Professor

## INDUSTRIAL VISIT REPORT ON LUBRIZOL

On 11<sup>th</sup> June 2021 Vivekanand Education Society's College of Pharmacy organized a Campus to Corporate (C2C) activity by Lubrizol Company. The session was conducted through online platform of Microsoft Teams and was very well hosted by Mrs. Rashmi Wani ma'am. Dr. Kedar Chikhalikar sir was the speaker for the session, he is the Head R & D (South Asia and Middle East), Lubrizol Life Science-Health in Lubrizol Advanced Materials India Private Limited. He shared a valuable piece of information about the company and some tips which can be advantageous for the betterment of all the students.

He shared a piece of guidance regarding confidence and leadership. He spoke about how confidence is the necessity in today's era. Confidence can hone one's personality and it is very much important to lead a team or group. Further he explained about why the leadership skills are important and how they can make difference in one's life.

Moreover, he conveyed some tips for the Curriculum Vitae (CV), what is its importance, how it should be designed and what elements should be included in it. He also mentioned about what aspects can make one's CV strong. Along with this he highlighted some points regarding interview skills such as how to appear the interviews, what kind of preparation should be done for the interview, what things should be avoided during interview.

Further he provided a detailed information about the company and the departments of the company, how is the working of the company, what procedures are followed, what are the equipment used for manufacturing and packaging processes. He showed some photographs for explaining about the same.

After the session the speaker, Dr. Kedar Chikhalikar sir answered all the queries of students and faculties very significantly. Then the session was concluded by the host Mrs. Rashmi Wani ma'am by giving vote of thanks to the speaker and Lubrizol Company for the wonderful session. The session was highly informative with respect to knowledge about interview ethics and future career opportunities. It was indeed a delightful and insightful session for all the students.

## INDUSTRY VISIT TO MAP LAB (online)

**Date of conduction:** 7th April, 2021

**Time of conduction:** 11:00am -12:00pm

**Mode of conduction:** Microsoft Teams Application

**Location of Lab:** Merck lab, 7<sup>th</sup> floor of VES College of Pharmacy, Chembur.

**Speaker:** Mr. Inder Gulati.

**Organizer:** Dr.Aparna Palshetkar, Ms.Harsha Khatpalia, Dr.Rajashree Hirlekar, Dr.Supriya Siddhaye

**The Map lab facility includes** sitting area, Analytical area, pH meters and diffusion testers for transdermal formulations, 6 HPLC instruments, five chambers maintained at different conditions to evaluate the products at specified intervals, formulation area, an area for 3D printing, Store area, Conference room, etc.

**Lecture on 3D Printing** covered the types of 3D Printing, customization of tablet design and demonstration on working of 3D printing machine.

### 1) Types of 3D printing:

- A. Powder Solidification : Drop-On-Solid Deposition & Selective Laser Sintering/Melting
- B. Liquid Solidification : Drop-On-Drop Deposition & Stereolithographic (SLA)
- C. Extrusion Based System : Solid : Fuse Deposition Modelling (FDM) & Semi-solid: Pressure Assisted Syringe

### 2) Customization of Tablet Design:

(Mrs.) Supriya S. Shidhaye  
PRINCIPAL  
Vivekanand Education Society's  
College of Pharmacy  
HAMC, Behind Collector Colony,  
Chembur, Mumbai - 400 074.

Customization of dissolution profile: In the study, the authors has designed five tablets, each with a distinctly different shape — a cube, pyramid, cylinder, sphere, and torus using auto CAD software. They found that when the surface area of the printed tablets was kept constant, the drug release rates were the fastest in the pyramid-shaped tablet, followed by the torus, cube, sphere, and finally the cylinder.

## Demonstration: Working of 3D Printing machine:

Steps:

- 1) Create 3D model of the requested object with a Computer Aided Design (CAD) program.
- 2) CAD file is exported to a printer recognizable file format, usually Standard Tessellation Language (STL) file.
- 3) This machine builds the part by layering material in every imaginable orientation.
- 4) Layers are always contoured two-dimensional in an x-y-plane, whereas the third dimension is caused by the stacking of layers on top of each other in z-direction.
- 5) Smaller the layer-thickness is, better is the quality of the final product. Big steps in z-direction lead to shift model or so called "stair-step effect".

## Conclusion:

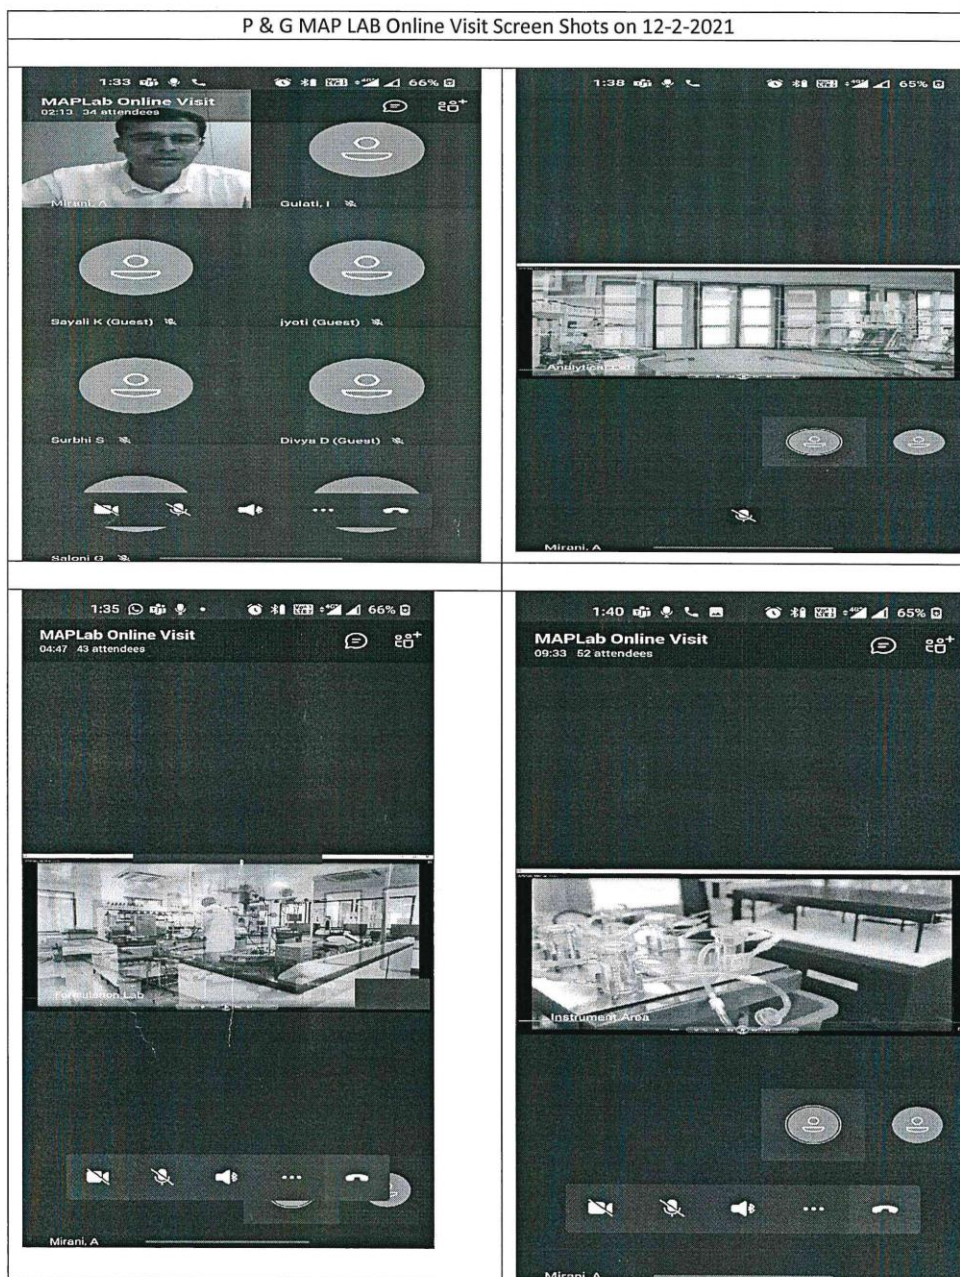

The online industrial visit (MAPLab), Chembur, Mumbai, was an excellent experience. Even though it was online, videos about working and use of 3D printer was taught. Even a full fledge virtual tour was also given, to provide insight.

I not only learnt about the practical applications of 3D printing in pharmaceutical but also understood the importance of following appropriate laboratory protocol as is required by a formulation and analytical scientist. This opportunity gave me an insight of the industry. It has overall nurtured in me a spark to develop a professional outlook towards the work and profession.

## Acknowledgements

We take this privilege and pleasure to thank the contributions of many individuals who have been inspirational and supportive throughout our MAP lab visit endowed us with most precious knowledge to see success in our endeavor.

I offer flower of deep gratitude to the Almighty God, who has been the source of strength throughout our lives.

We express our deep gratitude towards our Principal Madam Dr. Supriya S Shidhaye, Vivekanand Education Society's College of Pharmacy, for arranging P & G lab visit, to help us understand how industry works, for her constant inspiration, competent guidance, keen interest and encouragement.

We are also very thankful Mr. Inder Gulati, Head MAP Lab, P & G Health, Procter & Gamble and Mr. Tarun Goel, Analytical R & D Lead, Procter & Gamble.

We would also take an opportunity to thank our Final year class coordinator Mr. Keyur Shastri, Assistant Professor, Vivekanand Education Society's College of Pharmacy for providing us such an opportunity at our U.G level.

4	<b>Packaging unit</b>	2 6
5	<b>Stability Testing Room</b>	3 1
6	<b>Stores</b>	3 3
7	<b>Conclusion</b>	3 6
8	<b>Acknowledgement</b>	3 7

## Introduction to P&G

- **P&G**

**P&G** renames **Merck Limited** as **Procter & Gamble Health Ltd.** P&G is one of the largest and amongst the fastest growing consumer goods companies in India

Established in 1964, P&G India now serves over 650 million consumers across India. Its presence spans across the Beauty and Grooming segment, Household care segment as well as the Health and well-being segment, with trusted brands that are household names across India. Superior product propositions and technological innovations have enabled P&G to achieve market leadership in a majority of categories it is present in.

P&G operates under three entities in India - two listed entities '**Procter & Gamble Hygiene and Health Care Limited**' and '**Gillette India Limited**', as well as one 100% subsidiary of the parent company in the U.S. called '**Procter & Gamble Home Products**'.

- **P&G Consumer Health**

P&G provides products to consumers over 100 countries and lies in the top 20 bracket of most successful companies in the OTC industry.

P&G India is committed to sustainable growth in India, and is currently invested in the country via its five plants and over nine contract manufacturing sites, as well as through the 26,000 jobs it creates directly and indirectly. Their sustainability efforts focus on Environmental Protection as well as Social Responsibility to help develop the communities they operate in.

P&G over-the-counter products include cough and cold remedies, products to relieve headaches, muscle and joint pains, women and children's health products, and dietary supplements including probiotics and vitamins.

USP APPARATUS			
USP APP.	DESCRIPTOIN	ROT. SPEED	DOSAGE FORM
Type 1	Basket apparatus	50-120rpm	Conventional tablets, chewable tablets, CR
Type 2	Paddle apparatus	25-50rpm	orally Disintegrating tablets, chewable tablets, CR, suspensions
Type 3	Reciprocating cylinder	6-35rpm	CR, chewable tablets
Type 4	Flow through cell apparatus	N/A	ER, poorly soluble API, powder, granules, microparticles, implants
Type 5	Paddle over disk	25-50rpm	Transdermal
Type 6	cylinder	N/A	Transdermal
Type 7	Reciprocating holder	30rpm	CR(non disintegrating oral and Transdermal )

The basket assembly consists of following parts:

- Covered vessel.
- Metallic Drive Shift.
- Motor.
- Cylindrical Basket.
- Water Bath.
- Auto sampler.

Method:

- The basket holds the sample and rotates in a round flask containing the dissolution medium.
- Out of the 8 flasks, 6 are used for sample analysis, 1 for reference and 1 or blank.
- The entire flask is immersed in a constant temperature water bath set at 37 degree Celsius.
- The rotating speed and the position of the basket must meet the specifications as per USP.
- The most common rotating speed for the basket is 100 rpm.
