Dear All,

Pl find the important points discussed during meeting of Principal Madam with Academically weak students of SYBPharm.

Madam has asked all faculty about--

- 1 Notes of all subjects
- 2 Discussion of Blue print
- 3 Discussion of QP

Besides this few more points I have noted down in the scan attached herewith.

Pl do the needful as per the directives of Principal Madam |

--
With Best Wishes.

Real life problems for fast learners

ANALYSIS OF ACTUAL DIAGNOSTIC LAB REPORTS

Subject: Anatomy, Physiology and Pathophysiology

First Y. B. Pharm, Sem I

Method Description:

- Students are asked to bring laboratory diagnostic reports from home or a sample report is provided to them.
- Results and conclusion are masked. Students are asked to read the report in terms of various parameters covered in it.
- Students are asked to make conclusions as follows: Whether the tested parameters are in range or not. If not, which pathological condition does it suggest. Which Disease it can be linked to? And finally there conclusions and original conclusions are compared and discussed in classroom.
- This generates lot of interest in students and really helps in inculcating Pharmacist's Attitude in them right from the first year.
