Activity Information:

Objectives	As students transition into the next phase of offline, or physical classes, they have to gear up for returning to a way of life they have lost touch with, for 1.5 years. Further, the last few months have brought several challenges to many. In order to make this transition seamless, the C2C cell of VES COP, came up with this Aatmavikas session by VESLARC called "Happy Transitions!".
Methodology	The interactive module explored the emotions being perceived (hope along with anxiety), listed out certain specific challenges (like altered timetables) with their suggested solutions, helped students list out their goals and strength areas for motivation, offered certain study-tips, and concluded with simple tips for them to be reassured and empowered.
Outcomes	The session enlightened the students in alignment with our programme outcomes mentioned below: <ul style="list-style-type: none">• Problem Analysis – Utilize the principles of scientific enquiry, thinking analytically, clearly and critically, while solving problems and making decisions during daily practice. Dear Maam

Just wanted to ask are we going ahead with the talk today in the wake of the Power Grid Failure which has occurred for the entire Mumbai

If we can kindly reschedule todays talk to Wednesday or Thursday as per your convenience ,we would be grateful as we will not be able to deliver a very good session without the electricity & also majority of the students might not attend the same

Kindly let me know whatever you feel convenient & apt.
Incase you feel that we should still go ahead , we are ready & I have made alternative arrangements as well

Thank you

Respected Madam,

About the Campaign: Enchant the Real High (ERH):

We, a team of volunteers and teachers at Art of Living have initiated "Enchanting the Real High" **an educational and awareness project of, by and for Students.** "Prevention is better than cure" is the objective of this project. Awareness sessions will be delivered to students for making them informed of the monster of Substance abuse which may engulf them at a young age if they are not educated of its harms.

The Teenage Brain is Susceptible to Addiction and reason being pleasure centers of a teenager's brain develop faster than the parts of the brain responsible for decision-making and risk analysis. Maharashtra has the highest number of suicides because of alcohol addiction. 75% of youth consume alcohol before 21 which is a very alarming matter.

About The Art of Living

The Art of Living Foundation is a volunteer-based, humanitarian, and educational non-governmental organization. It was founded in 1981 by Sri Sri Ravi Shankar. The Art of Living Foundation has centers in more than 156 countries.

Youth Club Initiative of The Art of Living- S.O.R.T Club: The Students Organisation for Reform and Transformation is oriented towards the holistic well-being of the college student. The club provides students a platform to express themselves, overcome their inhibitions, serve society, grow professionally and adapt culturally to the changing needs of society. In addition, they receive tools that help them to deal effectively with their mind and emotions.

This initiative is part of SRR: Students Social Responsibility of Sort Club.

The talk sessions are delivered by our team of teachers who have many years of experience in mentoring youth which will prove fruitful in shaping the mind of the young and steering them away from substance abuse.

COMMUNICATION SKILLS

Name of the Activity: Importance of Self Confidence and Self Esteem in Communication skills

Class : F.Y.B.Pharm (SEM I)

Number of students attending the activity: 89

Day, Date, Year: Thursday, 1st February 2021

Activity Objective:

The role of Self Confidence and Self Esteem is vital in communication. The way we feel and treat ourselves makes a big impact on how we communicate. Self-esteem is the self-image which we carry of ourselves. Low self-esteem leads to low morale and hence the person is not able to communicate his thoughts and feelings to others. It's very important that a person carries high self-esteem to communicate better. A confident person is able to communicate better and is in command of his life. Such a person does not allow outside negativity to ruin his life. The self-confidence which a person carries is displayed in his personality, behaviour and the communication which he has with others. He is very optimistic and in charge of his life.

The activity conducted with below mentioned description was aimed to inculcate the importance of Self Confidence and Self Esteem in Communication.

Activity details:

- As a part of this activity, students were asked to stand in front of a camera and record a video of themselves.
- Students were supposed to introduce themselves in a manner which depicts their confidence while talking in front of the camera.
- Students were asked to talk for a few minutes about an unforgettable memory from their life (either good memory or bad memory).
- Students were asked to submit their video recordings which were further analysed by the teacher.
- Activity was conducted at the start of the course and communication skills of students were noted down from the video.
- Communication skills were further monitored throughout the semester and improvement was measured by the teacher with reference to the first video recording sent by students.

COMMUNICATION SKILLS

Name of the Activity: Importance of Ethics in Communication.

Class : F.Y.B.Pharm (SEM I)

Number of students attending the activity: 99

Day, Date, Year: Thursday, 5th April 2021

Activity Objective:

Ethics are the moral principles that govern one's behaviour or the conducting of an activity. However, Communication Ethics is much more than that. Ethical communication is "fundamental to responsible thinking, decision making, and the development of relationships and communities within and across contexts, cultures, channels, and media." Of course, it still takes into account the moral principles that govern a person's behaviour. However, it is much more than just being honest. For example, questions of right and wrong would emerge when people communicate with each other. Ethical communication enhances human worth and dignity by fostering truthfulness, fairness, responsibility, personal integrity, and respect for self and others.

The activity conducted with below mentioned description was aimed to inculcate the value of ethics in Communication.

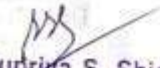

Activity details:

- As a part of this activity, students were divided in groups.
- Each group was narrated with a problem involving ethical dilemma.
- Students were supposed to discuss among themselves and arrive at a suitable solution for the given problem and justify the same to their class.
- Students were observed during group discussions and during presentations of solutions.
- Students were monitored for their listening abilities, ways of expressing themselves and their judgements to arrive at the solutions.
- Each solution presented by each group was discussed and deliberated with the class.
- Importance of inculcating good values in our lives was emphasised at the end of the activity.

INTERNATIONAL YOGA DAY 2019

International Yoga Day is observed on 21st June every year. To support this idea, the students of VES College of Pharmacy, Chembur, Mumbai, organized Yoga Day event in the college seminar hall which provided all the required facilities like yoga mats, water bottle, projector, etc. The students along with teaching and non-teaching staff assembled in the seminar hall by 10:15am. The programme started with sheer enthusiasm shown by each participant which boosted the energy and confidence in everyone. The Principal of college, Dr. Mrs. Supriya Shidhaye also attended this event with keen interest. Being a regular yoga performer, she also guided the students well.

The event began with a prayer to calm the mind and soul. Mr. Hiren Mange, a PG student enlightened the crowd with his spiritual thoughts regarding the importance and origin of Yoga. He, in his speech, quoted, "Yoga is not only for the body but also for soul and inner peace." He emphasized on the mind-control techniques using Yoga, which can be achieved by thoroughly practicing this activity.

The next part of this session involved physical exercises which began with warm-up activities followed by different types of Yogasanas. The four volunteers Kshitja, Shivangi, Pradnya and Sachin under the guidance of Mrs. Harsha Kathpalia and Mrs. Mithali Rathod demonstrated different types of asanas on stage, as per AYUSH Yoga protocol which were followed by the entire participant crowd. Principal madam helped in correcting some errors in the asana position and demonstrated simple techniques to perform asanas. Since the theme for this years' Yoga day was, 'Yoga for Heart', some asanas specific for heart benefit, like, Paschimottanasana, Adho Mukho Swanasana,

The screenshot shows a Zoom meeting interface. The main content is a presentation slide titled "What is Modeling & Simulation". The slide text reads: "Model and Simulation (M&S) is getting information about how something will behave without actually testing it in real life." Below the text is a flowchart with the following steps: Define Problem, Identify and Introduce Important Variables, Construct Simulation Model, Specify Values of Variables to Be Tested, Conduct the Simulation, Examine the Results, and Select Best Course of Action. There are feedback arrows from the "Examine the Results" step back to the "Specify Values of Variables to Be Tested" and "Construct Simulation Model" steps. On the right side of the Zoom window, there are video thumbnails for participants: Prajwal Raut, Vignesh Jeyaraj, Sheela Sankar, Deepak Sankar, and Sheela Ladia.
