UNIVERSITY of MISSISSIPPI

Department of Pharmaceutics and Drug Delivery
School of Pharmacy

Dear Mr. Jay Bharat Juthani,

The Department of Pharmaceutics and Drug Delivery wishes to thank you for your interest in enrolling in our Master's in Pharmaceutical Sciences with emphasis in Pharmaceutics program. Our Department is always trying to improve the quality and availability of this program to all qualified students. Since 2016, our Master's program has achieved 100% graduate placement.

This Letter is to offer you admission to the Master's in Pharmaceutical Sciences with emphasis in Pharmaceutics program starting in the Fall 2021 semester. This admission is to be from August, 2021 through July, 2022. This is a 2-year program. Your admission may be extended for the second year as per the guidelines designated by our Department and the University of Mississippi's Graduate School (e.g. maintaining a 3.0 GPA for your graduate courses).

A great benefit of this program is that should you perform well in this Master's program, you would be considered for our Ph.D. in Pharmaceutical Sciences with emphasis in Pharmaceutics program, which would provide a stipend and a full tuition waiver.

Another exciting advantage to our program is that all Master's students will engage in our "Hands-On Course in Tablet Technology" (\$3000 value), which is attended by scientists from industry, government agencies (e.g. FDA) and academia. To find out more about this opportunity please visit: www.tabcourse.com

You will be granted admission to the Department of Pharmaceutics and Drug Delivery upon agreement to the following conditions:

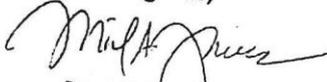

- 1.) The student will be totally self-funded for the entire 2-year duration. There will be no graduate research assistantships and/or tuition waivers from the Department of Pharmaceutics and Drug Delivery or The University of Mississippi. The student may be permitted by the Department Chair to accept on campus student worker positions (no tuition waiver) in the Pharmaceutics and Drug Delivery Department, as well as other units within the University. The Department of Pharmaceutics and Drug Delivery will offer funding for student workers (no tuition waiver) starting in the 2nd year. A student can work in a student worker position for up to 20 hours per week.
2.) The student will be responsible for tuition, books, meals, housing, insurance and transportation to and from classes.
3.) The student will not seek employment outside the University for any type of work during the fall or spring semesters. However, the student may apply for external internships during the summer or the December/January break.

Should you agree to these conditions, you will be assigned your responsibilities for courses to be taken and your research activities. The granting of your admission carries the responsibility of completing your course work and your thesis work required to successfully complete your Master's degree. The Faculty of the Department makes an evaluation of all graduate students annually and a satisfactory evaluation must be attained for continuation of your work toward your Master's degree. Based on your performance in the Master's program, and the availability of funding in the Ph.D. program, you may be considered for progression into the Ph.D. program following completion of the Master's program.

Please acknowledge acceptance of this appointment by signing on the space provided and returning a copy of this letter to me as soon as possible by email.

Dear Aditi,

Congratulations! We're happy to inform you that you have been admitted to the Pharmaceutical Sciences - MS program at the University at Buffalo for the Fall 2021 term! We are confident that your energy and talents will make you an asset to the School of Pharmacy and Pharmaceutical Sciences community.

Your admission is being recommended to the Office of International Admissions. They will determine your eligibility to receive the official documents necessary to apply for a Student Visa (should you require one). U.S. Immigration and Naturalization Service guidelines require that total financial resources must be clearly documented before institutions of higher education may issue Certificates of Visa Eligibility. You will need to submit the International Student Financial Form to document your ability to meet the educational and personal expenses of your proposed study program. You must prove immediate availability of the first year's expenses and tuition and a reliable source of support for subsequent years. The University at Buffalo reserves the right to withdraw admission and revoke the Certificate of Visa Eligibility if it learns that any fraudulent documents, false or misleading statements, or omitted information were submitted as part of your application. Additionally, your admission is contingent upon receipt of your final, official transcript indicating the conferral date for your bachelor's degree.

Please refer to the PDF letter attached here for the details of your offer (PhD students only).

We believe that we have an excellent graduate program in Pharmaceutical Sciences that will enable you to achieve your scientific goals. We are excited about the opportunity to work with you to advance fundamental and clinical knowledge in our discipline. We hope that you will join us.

If you have any questions or concerns, please do not hesitate to contact me at 716-645-7315 or robertbi@buffalo.edu.

Dear Ms. Vaidya,

Congratulations on your admission to graduate study at the University of Southern California. Your academic records indicate that you will make a significant contribution to academic life at the university.

You have been admitted as a graduate student in Pharmaceutical Sciences within the Graduate School for Fall 2018. Your degree objective is the Master of Science. Please include your USC ID (4480-0578-47) anytime you correspond with the university. This admission is offered subject to your maintaining your present level of academic achievement. If you have not already done so, you must provide proof of satisfactory completion of any studies in progress, and submit final academic records from each institution you have attended. Please review carefully the Continuing Registration Requirements information which lists all the requirements you must meet within your first term(s) of enrollment at the university. These must be met in order to continue in your degree program. Questions about the conditions should be addressed to your academic department or to the Office of Graduate Admission.

We encourage you to review the admitted student portal at gradwelcome.usc.edu, which includes specific information about registration and enrollment. You will also find a link to the portal at you.usc.edu when you click on the Statement of Intent button. You may also receive a separate welcome letter from your department specifying additional requirements for enrolling in their program.

As an international student, you have also demonstrated adequate financial support to receive an I-20 or DS-2019. This will be issued to you once you certify to enroll at USC. You must use this document to obtain a visa for entrance into the United States.

We are delighted to officially welcome you to our community of scholars and look forward to seeing you on campus!
