DATE	10 th August, 2018
TIME	10:00 a.m. to 3:00 p.m.
VENUE	Room no. 24, VES College of Pharmacy

Cancer is a disease so critical, that the only hope is stem cell therapy. Understanding this need of the hour, the Marrow Donor Registry India (MDRI) gave VES College of Pharmacy an opportunity to partner with them so that more people register as marrow donors, and subsequently more patients who desperately need access to stem cell transplant from a voluntary donor, have an access to it.

The college students were given a brief overview about the need and importance of Marrow Donation by the volunteers from MDRI. They went on to encourage students to register themselves as donors so that if there is requirement for marrow donation in the future, the volunteers can be further contacted.

The various health parameters of prospective marrow donors was checked, including weight, hemoglobin levels and history of any disease, if occurred. Subsequently, they were asked to donate a sample of their blood which could be used for the purpose of storing the DNA of the registered volunteers. This noble activity was carried out almost painlessly for those who registered.

The registered donors were also given donor cards after the completion of registration.

Corruption is the use of unethical methods to get some advantage by others. It has become one of the big factors of obstructing the development of the individual and country. On occasion of Vigilance Awareness Week, the Students' Council of VESCOP along with the Union bank of India organized an anticorruption campaign. This event was hosted by Anushka Rajesh from Final Year. It started off with a pledge against corruption, which was then followed by two activities: A Debate, the topic of which was "Can corruption be fought by enactment of laws alone?" and a Poster Making Competition based on Corruption and Swachh Bharat. IN the audience were students from the First Year, the participants and a few Council Members. The winners for Debate were Atreya Karandikar (TY) who received the First Position and Rushabh Sheregar (LY) who came in Second. Umang Ashar (SY) was awarded First Prize for Poster, Kishan Choudhary (TY) came in second, and Nikeeta Palande (TY) came in Third.

Corruption starts with the person itself, corruption is not only on money side but it is in various fields: corruption in thinking, political and professional, administrative and list goes on. We need to work on every field and the major source of transformation is Education, so start educating the child with ethics and morals involved. Fighting corruption is not just good governance. It is self-defence. It is patriotism.

Words have the power to create or destroy, and to weave magic with words is no ordinary task! To witness this magic, we organised an event called 'Just A Minute'. As the name suggests, the participants were given just one minute to express their thoughts about a particular topic. The catch was that they had to use the given topic (word) a maximum number of times, in sensible and connected sentences. It was amusing to watch participants juggling between repeating their word, while also making sense. Out of the seven participants, the first position was bagged by Shardul Parab from the final year, while the second and third positions were bagged by Sanjana Parameswaran and Prerna Dodeja respectively, both of whom are in the third year.

CHEMTASTIC 2016: Making Chemistry Fantastic.

It has been matter of great concern for all chemistry teachers that the interest level of students in this branch of science has been reducing day by day, for the varieties of the reasons. Hence it is imperative to adopt innovative methods or techniques by which the student community shall get attracted towards Chemistry again and the glory of the subject can be maintained. As small attempt to achieve this goal, the VES College of Pharmacy, Chembur has organized a unique event called as CHEMTASTIC 2016 which includes Chemistry based fun filled events, on 23rd July 2016. A series of events have been planned for Undergraduates and Post graduate students which will boost their imagination power, artistic talent and of course chemistry interest. It focuses on different areas of chemistry and bringing out the love for the subject via brilliantly designed activities namely CHEMSKIT (It gives the students to express their thoughts and understanding of chemistry by acting) , CHEMBUZZ (expertly designed chemistry quiz competition), CHEM-IN- MOTION (describing day to day chemistry to non-chemistry background made easier by innovative videos), CHEM-O-CHROME (have fun with chemistry with amazing colors in the form of Rangoli), PROCREATION (Model making or working reaction focusing on the theme of the event) which will test student's aptitude and their knowledge. The Chief Guest for this event is Dr. A. K. Tyagi, Renowned Senior Scientist from Chemistry Group of Bhabha Atomic Research Centre. Alluring Cash Prizes amounting to the tune of 25,000 for the winners has been declared. The event is attended by more than 150 participants coming from the southern tip of Konkan to the northern part. Students from Chiplun, Palghar and Navi Mumbai have thronged into numbers to participate in this unique event. The event is the brain child of Dr. Rakesh Somani, Professor and HOD, Dept of Pharmaceutical Chemistry, VES College of Pharmacy, who was also the convener of the event.

ABOUT ENVISAGE

Everything we see around us, every progress starts with a vision. The world is a beautiful place and our imagination to make it better is the first step towards bringing about a change. With a creative vision one can find an art in a broken piece of glass, one can also create a beautiful story with just a few words. A better imagination is a way towards an extraordinary future.

ENVIRONMENT HEED

 Just as deforestation is the major concern, our vision of reforestation and efforts in getting this vision into reality is where the change begins.

VISTA OF TECHNOLOGY

In this era of technology, humans are slowly being replaced by robots in numerous field.

AGE OF EGALITARIANISM

 If we compare the past decades we see that equality is prominent with respect to gender, caste, colour and more aspects, with this we can predict that soon enough the world will be free of prejudice.
