Lecture Series on 'Innovative Disruptions in Academia'

Webinar on 'Innovations in Academic Research for Promotion of Entrepreneurship'

Date: 3rd August, 2021

# Objective:

VESCOP IIC in Collaboration with IQAC under NEP 2020 initiated a lectures series on Innovative Disruptions in Academia. The inaugural session of the series was organized on 3rd August and we were fortunate to have Padmavibhushan Professor M. M. Sharma, exdirector of ICT as the resource person for the event.

### Mode

Online via Google meet platform

### Outcome:

The key highlights of this session entitled Innovations in Academic Research for Promotion of Entrepreneurship session were:

- · The need for strengthening the Ph.D. program in HEIs
- Importance of research in enhancement and enrichment of quality education
- Tips to be a successful innovator and entrepreneur
- The golden words for successful research & innovation curiosity, diligence and persistence

The webinar was attended by 396 participants which included 317 UG students, 30 PG students, 4 Ph.D. students, 10 faculty members, and 35 Industrial associates. The session was concluded with announcement of the winner for quiz competition on 'NEP & NISP' — An internal college event.

### Abstract:

Design of experiments (DoE), is one of the tools for QbD implementation. It is a planned approach for determining cause & effect relationships and can be applied to any process with measurable inputs & outputs. This webinar will cover basics of DoE explaining concepts of factors and level, construction of a design, ANOVA table, factor interactions, half normal plots, Pareto chart, curvature effect and so on. Further we will cover full & fractional factorial designs, Plackett Burman design & response-surface designs such as central composite with the help of pharmaceutical examples..

# Learning Objectives:

- Day 1: Basics of DoE using 2 level factorial design
- Day 2: Screening designs & 3 level factorial design with CPs
- Day 3: Response Surface Methods Central Composite designs

# Target audience

- **B. Pharm Students**
- M. Pharm Students
- Ph. D. Students
- Faculty members

This is a free webinar and an e-certificate will be issued to participants who will complete an e-assessment form within 3 days of completion of webinar

# About the speaker:

Dr. Anilkumar Gandhi is currently associated with Vivekanand Education Society's college of Pharmacy as Associated Professor and Research Advisor. He also works as a Consultant to Pharmaceutical companies in the area of Solubilization, Gastro-Retentive Delivery Systems, Liquid Sustained Release Technology, Modified Release Systems, ODTs etc. Overall, he has more than 18 years' industry experience in the space of NDDS & Generic formulation development, analytical development, technology transfer, clinical studies and intellectual property management.

Design of Experiments in Pharmaceutical research & Development: A Primer for Academia'

Academic Year: 2020-21

Date: 3rd August to 5th August, 2020

# Objective:

The objective of the webinar was to provide an in-depth knowledge about basics of DoE explaining concepts of factors and level, construction of a design, ANOVA table, factor interactions, half normal plots, Pareto chart, curvature effect and so on. Further the webinar was also aimed at providing insights on full & fractional factorial designs, Plackett Burman design & response-surface designs such as central composite with the help of pharmaceutical examples.

# Methodology:

The webinar was delivered by an expert from pharmaceutical industry having more than 18 years of experience in the field of Pharmaceutical Product Development. At the end of session of each day, e-assessment was conducted based on the contents taught on a particular day. Certificate of participation was issued only to those participants who had successfully attended the webinar and submitted assessment sheets for all days.

Background:

Intellectual Property Rights (IPRs) are a set of exclusive rights protected by law which are accorded to creators or persons over their creations for a certain time period. An IP right holder can realize value from its intellectual assets through utilizing it internally for its own processes or share it externally through provision of goods and services to customers. The latter can be achieved through legal mechanisms such as licensing or assignment. In today's globally competitive environment, intellectual property has placed itself on a pedestal in the context of economic growth and is becoming increasingly important. Intellectual Property (IP) is the fuel that powers the engine of prosperity, fostering invention and innovation. The increasing significance of intangible assets in the global economy is forcing business organizations to actively manage their IP as a key driver for building and sustaining their competitive advantage and achieving superior performance. IPRs are now being used not only as a tool to protect creativity and generate revenue but also to build strategic alliances for socio-economic and technological growth. Accordingly, in order to foster the protection of innovations and creativity, the MHRD IIC and AICTE is dedicated to mobilize the use of such technological advancement for the economic development of the country.

Objective:

New education policy (NEP) emphasizes on research, innovation, entrepreneurship and start up culture. It aims at creating the research and innovation ecosystem in within our educational institute. NEP is coming up with multiple interventions at school and higher education level to establish and stabilize the culture of innovation and entrepreneurship in the institutes. KAPILA is one such initiative jointly launched by MHRD IIC and AICTE, to create awareness about patent filing and intellectual property.

KAPILA initiative, named after Dr APJ Abdul Kalam, has two meanings. it celebrates our ancient culture by remembering Rishi KAPILA ji as well as it stands for KALAM PROGRAM OF IP LITERACY AND AWARENESS.

This initiative aims at encouraging and promoting the educational institutes which are passionate about research and innovation to join hands together for taking the ideas forward. KAPILA will help build up a community which will promote the ideas getting filed and eventually commercialized.

Benefit in terms of learning/Skill/Knowledge obtained:

The students in higher education institutions of the country are innovating constantly under the guidance of their teachers. However, they are not aware of the system of filing its patent but under this campaign, students will be able to get benefits from their inventions by patenting them.

Day 1: The patent awareness programme was organized at VES College of Pharmacy, Mumbai on 4<sup>th</sup> November 2020. About 60 participants including students and faculties participated in the programme.

Dr Supriya Shidhaye, Principal, VES College of Pharmacy, welcomed Mr Sunil Patil (CO-FOUNDER & TECHNICAL ADVISOR – INORIM LIFESCIENCES LLP, Mumbai) and the participants. Mr Sunil Patil spoke about how inventions could help to boost economic and technological developments in the country. He explained how patents can also be registered and assigned just the same way as any other immovable property and stressed its importance in the light of new agreements such as TRIPS and WTO.

He spoke on other forms of IPRs like copyright, trade mark, geographical indications, etc. He gave many examples of how very simple inventions gave the people advantage in their daily lives and also benefited the inventor financially. This was followed by a question-answer session.

Day 2: The patent awareness programme was organized at VES College of Pharmacy, Mumbai on 7<sup>th</sup> November 2020. About 60 participants including students and faculties participated in the programme.

Mr Sunil Patil spoke on the "Patenting System in India" In his lecture, he spoke on different forms of IPRs with suitable examples, with specific reference to patents. Mr Patil explained the present system of patenting in India and also gave necessary details on various steps involved in filing patents (like provisional and final specifications, patent examination, publication, opposition etc), time required for each of the steps and fees to be paid at different stages. He also emphasized on "Novelty and Inventiveness in Patents" "Copyright Management". He explained why novelty and inventiveness are essential for grant of patents and how these are decided during patent examination. He discussed extensively on copyright issues and the litigations arising out of them. Further, these technical sessions were followed by question-answer session in which questions related to technicalities of patents (like patentability of innovations etc) and patenting procedures were posed by the participants and were duly clarified by the speakers.

Day 3: The patent awareness programme was organized at VES College of Pharmacy, Mumbai on 11<sup>th</sup> November 2020. About 60 participants including students and faculties participated in the programme.

Mr Sunil Patil gave an overview of the present system of patenting in India with details on various steps involved in filing patents (like provisional and final specifications, patent examination, publication, opposition etc), time required for each of the steps and fees to be paid at different stages. He also gave some interesting data patent applications filed, patents granted in various patent offices in India. He also explained about "Patent Information and

# Product Development in the Era of QbD & ICH Q8: A Primer for Academia

Jun 3-5, 2020 12:00 noon

Speaker: Dr. Anilkumar S. Gandhi, Consultant & Associate Professor, VESCOP

Click here to Register (Last date 31st May 2020)

Join us for a session on Good Practices in Pharmaceutical Research & Development, as Dr. Gandhi discusses the Science and Principles of Product Development

Day 1: Wednesday, O3rd Jun, 2020

Day 2: Thrusday, 04th Jun, 2020

Day 3: Friday, 05th Jun, 2020

Time: 12:00 noon.

Duration: 60 minutes

### Abstract:

A drug product's quality cannot be solely relied upon its manufacturing GMP. Many quality problems are related to the way in which a product is developed. A poorly designed product may exhibit safety &/or efficacy challenges; no matter how many tests or analyses have been done to verify its quality. The goal of ICH guidelines & QbD principles is to detail practices on a proactive design for product & process understanding. The speaker in a specially designed program for academia, will deliberate on these principles taking case studies of generic products and research projects usually undertaken at Institutes.

## Learning Objectives:

- Day 1: 5 Key Elements of QbD such as QTPP, CQA etc
- · Day 2: Drug Product component selection & optimization
- · Day 3: Manufacturing process design and Life Cycle Management

## Target audience

- B. Pharm Student
- M. Pharm Students
- Ph. D. Students
- Faculty members

This is a free webinar and an e-certificate will be issued to participants who will complete an e-assessment form within 3 days of completion of webinar

# About the speaker:

The objective of the webinar was to provide an in-depth knowledge about the principles of QbD & ICH Q8 taking case studies of generic products and research projects usually undertaken at Institutes.

# Methodology:

The webinar was be delivered by an expert from pharmaceutical industry having more than 18 years of experience in the field of Pharmaceutical Product Development. At the end of session of each day, e-assessment was conducted based on the contents taught on a particular day. Certificate of participation was issued only to those participants who had successfully attended the webinar and submitted assessment sheets for all days.

Learning Objectives:

Day 1: 5 Key Elements of QbD such as QTPP, CQA etc

Day 2: Drug Product component selection & optimization

Day 3: Manufacturing process design and Life Cycle Management

Background:

The corona pandemic has taken our teaching from the classroom to a virtual world. The use of virtual classrooms and labs is the need of the hour.

Objective:

The aim of this webcast is to increase awareness of several virtual lab platforms available.

# Benefit in terms of learning/Skill/Knowledge obtained:

It will specifically deal with use of Virtual Labs developed by MHRD, Govt. of India. In particular, the virtual experiments in Microbiology, Biochemistry, Physical Pharmacy, Pharmaceutical Analysis and Organic Chemistry pertaining to the B. Pharm Program were demonstrated. The virtual experiments were preceded by its short introduction and were a mix of animation videos and interactive simulations. The webcast concluded with list of other virtual labs available

# One Day faculty Development Program "NAAC –Revised Accreditation Framework (RAF) and Self-Study Report (SSR): An Overview"

Date: 06/12/2018

Speaker: DR. Sangeeta Joshi

Professor and Technical Advisor Vidyalankar College of Engineering

# Introduction:

NAAC focuses on quality culture. e.g. Monitoring teachers Performance by feedback system.

The process is monitored, analysis of data done to assess teachers performance. Data of last 5 Years presented as graph and checked weather faculty is improved or performance has come down. According to impact of analysis, action is taken. As per the Academic audit/performance, improvement plan is given by the faculty or HOD. In next session again analysis is done. If performance is satisfactory, the loop closes. Thus it is closed loop feedback system. This way 40 such systems are to be presented.

NAAC fees are RS.29, 500/- .

# ABOUT THE PROGRAM

Objective. To provide a refresher course in innovations in pharmaceuticals, healthcare and biologicals to pharmacy professionals in the industry who want to update themselves with recent developments in this field.

Design. The sessions will emphasize on the understanding of the basic drug delivery principles principles learned in graduate programs and applying that knowledge to industrial scenarios to bring about innovations. This will be accomplished by arranging for lectures by experts in the field of pharmaceuticals, healthcare and biologicals and by small-group, context-focused discussions that require participants to apply the principles outlined in the lecture series.

Evaluation. Participants understanding of the concepts discussed within the course will be assessed via home assignments

**Duration.** This program will be spread over six months duration and one module per month. In one month the program will be conducted on alternate Saturdays (1st and 3rd or 2nd and 4th depending on availability of participants). Each class will be of 3-4 hours duration.

Dear Dr Rakesh.

Seasons Greetings to you and your family members too.

We agree it is guite a long break since Jan 2016, the last time we did Fire Drill at your premises. We also appreciate your deep concern for augmenting the Safety and security aspects in your college to protect both lives and property, and build a robust Emergency Response/ Disaster Management response system.

Can we meet up on Jan 16,2018 at 930am? Hope the date and time are suitable to you!! We can meet the 7 team leaders and few team members, (that you would have formed as per the last Fire drill notes) on the same day, in a pre-briefing session. We can also finalize the actual fire drill date too.

We are traveling just now interior Maharashtra, and we would be back on Jan15 afternoon. Hence our request to meet on Jan 16

Please do confirm.

year Sir/Madam,

'ivekanand Education Society's College of harmacy in Collaboration with UGC's Vestern Regional Instrumentation Centre, Iumbai, is organizing a six day workshop on Maintenance of Electronic Laboratory nstruments' from 15th - 19th May. 2018. 'he keen motivation behind organizing this rogramme has been the fact that most of the aculties/ Research Scholars/ Technicians in Jniversities/Institutes/ colleges are not trained dequately on the repair/maintenance of :lectronic equipments. Many laboratories have large number of equipments abandoned due to ery minor defects. Also, the money that is pent for the repair and maintenance of these quipments is huge. Again, the repairing annot be performed in time leading to several lifficulties in the smooth functioning of aboratories. In a separate dimension, the vastes emerging from electronic equipment's is larming and is going to be a great challenge or the present scientific community, The vorkshop focuses on these issues.

The workshop focuses on encouraging and upporting laboratory staff members and echnically competent people by giving specific nputs and intensive hands-on sessions on tandling, operation and maintenance of electronic laboratory instruments like autoclave, oven, microscope, magnetic stirrer, overhead stirrer, dissolution test apparatus, lisintegration test apparatus, pH meter, colorimeter and spectrophotometers

### Scope:

The program curriculum has been specifically designed for Research Scholars/ technical and scientific staff of pharmacy and science colleges affiliated to University of Mumbai. This program aims at imparting skills in techniques, operation, maintenance and repairs of laboratory instruments commonly used in science/Research laboratories

# Programme content

- Introduction to the basic of electric and electronics equipment & components.
- Awareness and requirement of general repairs and maintenance of laboratory Instruments Repairing of electrical instruments like, hot plate, heating mental, magnetic stirrer & water bath.
- Working, proper handling and repairing of temperature-controlled oven, incubator & water bath.
- Working principle repairing, maintenance and calibration of pH meter, pH electrode, colorimeters, flame photometer, spectrophotometer, & conductivity meter.
- Operation, repairing and maintenance of Electron Microscope, optical Microscope & analytical balance.

# Maximum number of participants :25

# Workshop on 'Maintenance of Electronic Laboratory Equipments'

Academic Year: 2017-18

Date: 15th May to 19th May, 2018

# Objective:

The objective of the workshop was to encourage and support laboratory staff members and technically competent people by giving specific inputs and intensive hands-on sessions on handling, operation and maintenance of electronic laboratory instruments like autoclave, oven, microscope, magnetic stirrer, overhead stirrer, dissolution test apparatus, disintegration test apparatus, pH meter, colorimeter and spectrophotometers

# Methodology:

The workshop was conducted in collaboration with Western regional Instrumentation Centre (WRIC). The team of WRIC experts conducted a five day hands-on-workshop by training the lab staff about how to take care of electronic equipments and troubleshooting minor problems related to non-functioning of the instruments/equipments.

# Learning Objectives:

Report on BRIC organized workshop on "Funding Channels for Academic Entrepreneurs, Business Aspects for Technopreneurs and Success Stories"

Make in India is a major new national program aimed to foster innovations and build best-in-class manufacturing infrastructure in India. To make this dream a reality, it is necessary to orient present generation and academia towards the concept of entrepreneurship, and qualities of successful entrepreneurs. Biotechnology Industry Research Assistance Council (BIRAC) is a not-for-profit Public Sector Enterprise, set up by Department of Biotechnology (DBT), Government of India, as a new industry-academia Interface Agency with a vision to foster innovation and entrepreneurship.

With a vision to foster interest in entrepreneurship amongst academicians as well as students of VES institutes, a workshop was organized by BIRAC Regional Innovation Centre (BRIC) in collaboration with IKP Hyderabad and VES on "Funding Channels for Academic Entrepreneurs, Business Aspects for Technopreneurs and Success Stories". The workshop was conducted on 2nd December 2017, between 3 pm to 5 pm at VES Institute of Management.

The theme of the workshop was largely successful in creating interest amongst VES students as well as faculty member, who attended the same in large numbers. There were 220 registrations for the workshop with maximum student participation. VESCOP was also successful in reaching out to other pharmacy colleges with about 30% registrations from other Pharmacy institutes.

The speakers for the workshop were imminent personalities from IKA Knowledge Park, namely, Dr. Deepanwita Chattopadhyay, Chairman and CEO, IKP Knowledge Park, Dr. Ramjee Pallela, Chief Manager, IKP Knowledge Park, and Dr. Ranajit Sen, Start-up mentor, IKP Knowledge Park. All of them were effective in enlightening the audience with the different funding programs available for entrepreneurs, and in understanding business aspects for commercializing a product.

The workshop received positive feedback from the participants and we hope to conduct such workshops in the future.

its access". He spoke on how novelty and inventiveness are essential for consideration for granting patents and also how these are decided though exhaustive patent searches. He gave details of various databases - Indian and foreign, with free and paid access - available for patent searching to establish novelty. Also, he explained how patent search is done using key words and combination of keywords. Further, these technical sessions were followed by question-answer session in which questions related to technicalities of patents (like patentability of innovations etc) and patenting procedures were posed by the participants and were duly clarified by the speakers.

Sub: Thanks for interacting with our Faculty Members and Post Graduate students.

Dear Sir,

We thank you whole heartedly for delivering a lecture on the topic "Hydrotropy and mixed solvency" to our Faculty Members and Post Graduate Students on 6th March, 2017.

The lecture was very informative in terms of its contents. The students also got their doubts cleared.

Your co-operation is highly appreciated and we hope that this support will be continued in the future also.

Thanking you,

#### 18) JOURNAL CLUB ACTIVITY

JCA- 'JOURNAL CLUB ACTIVITY' is an initiative that has been undertaken at VESCOP since the academic year 2016-17.

This year VESCOP embarks its journey to the second JCA activity which is conducted for undergraduates while they are in third year of bachelors in pharmacy program as per the schedule.

JCA is an activity whereby the class is divided into groups of students and is allowed to choose any topic they want in guidance of the mentor. They are asked to undergo a literature survey by referring to reputed International and Indian journals and present their power point presentation to the class.

Hashu Advani Memorial Complex, Behind Collector Colony, Chembur (E), Mumbai - 400 074

Evaluators in the form of teachers apart from the guide are allotted and are attending this session for judging their technical knowledge, presentation skills, and team spirit. This is followed by a brainstorming Question Answer session where in refining their communication skills and in depth knowledge is assessed. The theme is to think, find, execute, and learn.

This activity attempts to shower light on how certain objectives that VESCOP wants to attain and inculcate in its undergraduate students can be achieved via research and review aspect. This activity has helped students on how to conduct a meaningful review of the current research and ways to refer high index factor research papers in reputed journals. In this era when such activities with many novel techniques are known, making a student refer to such reputed journals helps them in figuring out the rationale and intellectual capability. This also boosts their thinking ability and builds interest in the subject of research area. The students who aspire to be scientists, can carry out a meaningful research work later with an unambiguous aim by performing a proper literature survey from esteemed journals.

Student presented research articles on the following topics

Design, characterization and in vitro evaluation of linalool-loaded solid lipid nanoparticles as potent tool in cancer therapy

Microemulsion based Hydrogel formulation of Penciclovir for topical delivery

Dual functionalized liposome-mediated gene delivery across triple co-culture blood brain barrier model and specific in vivo neuronal transfection

Formulation strategies for effective delivery of Primaquine

Impact of nanostructured lipid carriers on dapsone delivery to the skin: in vitro and in vivo studies

Theranostic nanoparticles for tumor-targeted imaging and programmed photoactive therapy

PROTON RADIOTHERAPY IN MANAGEMENT OF PEDIATRIC BASE OF SKULL TUMORS

PREPARATION AND CHARACTERIZATION OF HERBAL NANOFORMULATION CONTAINING ANDROGRAPHIS PANICULATA EXTRACT

Evaluation EVALUATION OF ANTIBACTERIAL ACTIVITY OF CUSCUTA REFLEXA ROXB.

Biochanin A improves insulin sensitivity and controls hyperglycemia in type 2 diabetes

In vitro delivery of anti-breast cancer agents directly via the mammary papilla (nipple)

Preparation and evaluation of captopril loaded gastro-retentive zein based porous floating tablets

Monitoring antiangiogenesis of bevacizumab in zebrafish

Polyvinyl alcohol degradation by Bacillus cereus RA23 from oil sludge sample

Formulation And Evaluation Of Antiaging Cream Containing Magniferin

Cost-effectiveness of a Stepwise Approach vs Standard Care for Diabetes Prevention in India

Potential effects of pharmaceuticals and their residues in aquatic environment

Data of antibacterial activity of plant leaves crude extract on bacterial isolates of wound infections

Folic Acid-Chitosan Conjugated Nanoparticles for Improving Tumor-Targeted Drug Delivery

Encapsulation of temozolomide in a tumor-targeting nanocomplex enhances anti-cancer efficacy and reduces toxicity in a mouse model of glioblastoma

Hyaluronic acid-serum albumin conjugate-based nanoparticles for targeted cancer therapy

#### XVIII JOURNAL CLUB ACTIVITY

It is an initiative that has been undertaken at VESCOP since last four years. This year VESCOP embarks its journey to the Fifth JCA activity which is conducted for undergraduates while they are in third year of bachelors in pharmacy program as per the schedule. These marks are directly correlated to one of the activity based system in NBA thus creating its importance and attainment of the course curriculum and program by review and research aspect.

#### XIX| PARENT TEACHER MEETING

Parents Teachers Meeting [PTM] was conducted on 5.10.2019 [Saturday for S Y B Pharm, T Y B Pharm and Final Year B Pharm.

Orientation program for First Year B. Pharm Parents and Students was held on 18th August, 2018 (Saturday) from 2:30 to 4:00 pm.

#### XXI ACTIVITIES OF INSTITUTION'S INNOVATIVE COUNCIL (IIC2.0)

VES College of Pharmacy established the Institution's Innovation Council which is a recognized unit of MHRD's Innovation Cell. The council was flagged by MHRD's Innovation Cell on 12th Nov 2018. The objective of this council is to promote entrepreneurial skills in students and motivate and train them to become successful entrepreneurs. The initiative involves conducting workshops and participating in different Hackathon events, that will not only boost the confidence of students but will also help to create a healthy environment for innovation.

The council followed the calendar of activities prescribed by the MHRD for 2018-19. This has brought an accolade for college in the form of Four-star rating by the evaluation committee of the MHRD

VESCOP is the only Pharmacy Institute in Western region with a 4-star rating. We are among 4 of 40 Pharmacy institutes and among 138 of 888 Technical institutes honoured with such a high score.

### **PHO** activities

### XVIII JOURNAL CLUB ACTIVITY

It is an initiative that has been undertaken at VESCOP since last four years. This year VESCOP embarks its journey to the Fifth JCA activity which is conducted for undergraduates while they are in third year of bachelors in pharmacy program as per the schedule. These marks are directly correlated to one of the activity based system in NBA thus creating its importance and attainment of the course curriculum and program by review and research aspect.

JCA is an activity whereby the class is divided into groups of four students each and is allowed to choose any topic they want in guidance of the mentor. They are asked to undergo a literature survey by referring to reputed International and Indian journals and present their power point presentation to the class. Evaluators in the form of teachers apart from the guide are allotted and are attending this session for judging their technical knowledge, presentation skills, and team spirit. This is followed by a brainstorming Question Answer session where in refining their communication skills and in depth

llashu Advani Memorial Complex, Behind Collector Colony, Chembur (E), Mumbai - 400 074

knowledge is assessed. The theme is to think, find execute, learn. This activity attempts to shower light on how certain objectives that VESCOP wants to attain and inculcate in its undergraduate students can be achieved via research and review aspect. This activity has helped students on how to conduct a meaningful review of the current research and ways to refer high index factor research papers in reputed journals. In this era when such activities with many novel techniques are known, making a student refer to such reputed journals helps them in figuring out the rationale and intellectual capability. This also boosts their thinking ability and builds interest in the subject of research area. All students submit a summary of the conducted activity after each session. The students, who aspire to be scientists, can carry out a meaningful research work later with an unambiguous aim by performing a proper literature survey from esteemed journals.

VIGILANCE AWARENESS WEEK Fighting corruption is not just good governance. It's self-defence. It's patriotism.

Organizing Institute: VES College of Pharmacy

Details of the activity:

Sr. No.	Location	Date	Timing	Activity
1.	VESCOP, Chembur, Mumbai-400074.	October 27 <sup>th</sup> ,2018	2 pm to 4 pm	<ul><li>Poster Making.</li><li>Debate.</li></ul>

Corruption is the use of unethical methods to get some advantage by others. It has become one of the big factors of obstructing the development of the individual and country. On occasion of Vigilance Awareness Week, the Students' Council of VESCOP along with the Union bank of India organized an anti-corruption campaign. This event was hosted by Anushka Rajesh from Final Year. It started off with a pledge against corruption, which was then followed by two activities: A Debate, the topic of which was "Can corruption be fought by enactment of laws alone?" and a Poster Making Competition based on Corruption and Swachh Bharat. IN the audience were students from the First Year, the participants and a few Council Members. The winners for Debate were Atreya Karandikar (TY) who received the First Position and Rushabh Sheregar (LY) who came in Second. Umang Ashar (SY) was awarded First Prize for Poster, Kishan Choudhary (TY) came in second, and Nikeeta Palande (TY) came in Third.

Corruption starts with the person itself, corruption is not only on money side but it is in various fields: corruption in thinking, political and professional, administrative and list goes on. We need to work on every field and the major source of transformation is Education, so start educating the child with ethical and moral values involved.

# XXI] BRIC organized workshop on "Funding Channels for Academic Entrepreneurs, Business Aspects for Technopreneurs and Success Stories"

Make in India is a major new national program aimed to foster innovations and build best-in-class manufacturing infrastructure in India. To make this dream a reality, it is necessary to orient present generation and academia towards the concept of entrepreneurship, and qualities of successful entrepreneurs. Biotechnology Industry Research Assistance Council (BIRAC) is a not-for-profit Public Sector Enterprise, set up by Department of Biotechnology (DBT), Government of India, as a new industry-academia Interface Agency with a vision to foster innovation and entrepreneurship.

With a vision to foster interest in entrepreneurship amongst academicians as well as students of VES institutes, a workshop was organized by BIRAC Regional Innovation Centre (BRIC) in collaboration with IKP Hyderabad and VES on "Funding Channels for Academic Entrepreneurs, Business Aspects for Technopreneurs and Success Stories". The workshop was conducted on 2<sup>nd</sup> December 2017, between 3 pm to 5 pm at VES Institute of Management.

The theme of the workshop was largely successful in creating interest amongst VES students as well as faculty member, who attended the same in large numbers. There were 220 registrations for the workshop with maximum student participation. VESCOP was also successful in reaching out to other pharmacy colleges with about 30% registrations from other Pharmacy institutes.

The speakers for the workshop were imminent personalities from IKA Knowledge Park, namely, Dr. Deepanwita Chattopadhyay, Chairman and CEO, IKP Knowledge Park, Dr. Ramjee Pallela, Chief Manager, IKP Knowledge Park, and Dr. Ranajit Sen, Start-up mentor, IKP Knowledge Park. All of them were effective in enlightening the audience with the different funding programs available for entrepreneurs, and in understanding business aspects for commercializing a product.

#### XXIVI JOURNAL CLUB ACTIVITY

It is an initiative that has been undertaken at VESCOP since last four years. This year VESCOP embarks its journey to the Fourth JCA activity which is conducted for undergraduates while they are in third year of bachelors in pharmacy program as per the schedule. These marks are directly correlated to one of the activity based system in NBA thus creating its importance and attainment of the course curriculum and program by review and research aspect.

JCA is an activity whereby the class is divided into groups of four students each and is allowed to choose any topic they want in guidance of the mentor. They are asked to undergo a literature survey by referring to reputed International and Indian journals and present their power point presentation to the class. Evaluators in the form of teachers apart from the guide are allotted and are attending this session for judging their technical knowledge, presentation skills, and team spirit. This is followed by a brainstorming Question Answer session where in refining their communication skills and in depth knowledge is assessed. The theme is to think, find execute, learn. This activity attempts to shower light on how certain objectives that VESCOP wants to attain and inculcate in its undergraduate students can be achieved via research and review aspect. This activity has helped students on how to conduct a meaningful review of the current research and ways to refer high index factor research papers in reputed journals. In this era when such activities with many novel techniques are known, making a student refer to such reputed journals helps them in figuring out the rationale and intellectual capability. This also boosts their thinking ability and builds interest in the subject of research area. All students submit a summary of the conducted activity after each session. The students, who aspire to be scientists, can carry out a meaningful research work later with an unambiguous aim by performing a proper literature survey from esteemed journals. The activity is headed Dr.Gaurav Doshi under the able guidance of Dr. Supriya Shidhaye.

### IXI CAMPUS TO CORPORATE TRANSITION PROGRAMME

# Campus to Corporate (C2C) Transitions - "Creating Enabling Attitude"

Making a transition from Campus to Corporate life proves to be a major stumbling block for many new hires. There are unspoken nuances and social norms that many graduates are completely unaware of and adjusting to a professional environment can be extremely challenging as also traumatic to a few. Employability requires three key ingredients of competency – knowledge, skills and attitude – knowledge, as you notice is just one component. While we have been doing a fairly good job on the knowledge front, but the gap is mostly observed in areas of technical skills development including enhancing soft skills abilities of the students. The need for campus to corporate originates from the dynamic environment that we operate in, though our education system prepares us thoroughly & intellectually, the work challenges require various business skills that are not part of curriculum. VESCOP has designed its Campus to Corporate training program to boost the confidence of the freshers and provides them tools like goal setting, team work and stress management.

While Knowledge and Skills will help students to become employable but without an enabling attitude, the employability would be a short lived experience and hence a lot of focus on "Creating Enabling Attitude" must be given. It is the 'Attitude' which drives 'Knowledge' and 'Skills' for each individual.

VESCOP's Campus to Corporate program has been created with an objective of empowering students with tools for improving their personal and professional excellence, leading to improved employability and professional effectiveness.

### C2C Transition program is conducted in the following avenues.

- A. Vidyan Manch Industry- Academia/Student interaction.
- B. Disha Career Avenues after B. Pharm.
- C. Talkathon Student Alumni interaction
- D. Atmavikas Soft Skill Development

### A] "VIDNYAN MANCH":

VESCOP gives utmost importance to practical exposure and interaction to its budding professionals. For this, eminent speakers from the top industry are invited to impart best educational light and enlighten our students with their ideas and experiences.

The fascinating lectures on various topics boost the confidence of new aspirants as the lectures ends with motivating question and answer sessions. Distinguished guest lecturers speak on various important topics that prove beneficial for them while choosing the right career paths.

# CHEMTASTIC 2016: Making Chemistry Fantastic.

It has been matter of great concern for all chemistry teachers that the interest level of students in this branch of science has been reducing day by day, for the varieties of the reasons. Hence it is imperative to adopt innovative methods or techniques by which the student community shall get attracted towards Chemistry again and the glory of the subject can be maintained. As small attempt to achieve this goal, the VES College of Pharmacy, Chembur has organized a unique event called as CHEMTASTIC 2016 which includes Chemistry based fun filled events, on 23rd July 2016. A series of events have been planned for Undergraduates and Post graduate students which will boost their imagination power, artistic talent and of course chemistry interest. It focuses on different areas of chemistry and bringing out the love for the subject via brilliantly designed activities namely CHEMSKIT (It gives the students to express their thoughts and understanding of chemistry by acting) , CHEMBUZZ (expertly designed chemistry quiz competition), CHEM-IN- MOTION (describing day to day chemistry to non-chemistry background made easier by innovative videos), CHEM-O-CHROME (have fun with chemistry with amazing colors in the form of Rangoli), PROCREATION (Model making or working reaction focusing on the theme of the event) which will test student's aptitude and their knowledge. The Chief Guest for this event is Dr. A. K. Tyagi, Renowned Senior Scientist from Chemistry Group of Bhabha Atomic Research Centre, Alluring Cash Prizes amounting to the tune of 25,000 for the winners has been declared. The event is attended by more than 150 participants coming from the southern tip of Konkan to the northern part. Students from Chiplun, Palghar and Navi Mumbai have thronged into numbers to participate in this unique event. The event is the brain child of Dr. Rakesh Somani, Professor and HOD, Dept of Pharmaceutical Chemistry, VES College of Pharmacy, who was also the convener of the event.

### C) ROTARACT CLUB:

Rotaract Club of VES College of pharmacy is a platform that helps to search hidden talent even in the dark, it's that platform which connects each and every individual to the entire world. It's a grooming dais for our students that helps them to achieve their goals. Activities conducted in A.Y 2016-17 by rotaract club are as follows.

### XI] "UTKARSH": Faculty Development initiatives

### A) PRESENTATIONS:

For up gradation of knowledge, VESCOP promotes faculty members to participate in various seminars and present their research work. The following faculty members presented their work at various state/national level conferences.

Sr. No	Title	Venue	Author/ Co-Author
1	Prodrugs to Co-drugs	Ideal College of Pharmacy, Karjat	Dr Deepali Gangrade , Mr Vineet Kulkarni , Ms Namrata Kulkarni
2	KarjatIn silico : A new expedient \for drug discovery	Ideal College of Pharmacy, Karjat	Dr Deepali Gangrade , Mr Vincet Kulkarni , Ms Namrata Kulkarni
3.	Sept-9 Methylation: A Non Invasive Biomarker In Diagnosis Of Colorectal Cancer	Ideal College of Pharmacy, Karjat	Mrs Pradnya , shinde korlekar , Ms namrata Kulkarni

### B) PUBLICATIONS:

VESCOP aims at communicating with the eminent researchers in the field of science and technology by publishing the review/research papers in the respective areas of specialization. The table elucidates the publication done by the faculties till date:

### XIII JOURNAL CLUB ACTIVITY

It is an initiative that has been undertaktrophyen at VESCOP since the academic year 2014-2015. This year VESCOP embarks its journey to the third JCA activity which is conducted for undergraduates while they are in third year of bachelors in pharmacy program as per the schedule. This activity attempts to shower light on how certain objectives that VESCOP wants to attain and inculcate in its undergraduate students can be achieved via research and review aspect. 15 papers presented by 15 groups, each of 4 students from T.Y.B. Pharm., Sem. VI of A.Y. 2016-17.

### XIII] Undergraduate Research Project:

To develop research aptitude amongst UG students. VESCOP has started the initiative of UG research project programme where in UG students undertake training in short term and long term research projects under research guides. Currently 12 UG research projects are going on

### XIV] KRIDA-VARTA:

### A] SHRESHTHATA AWARD

The Shreshthata Awards is an initiative by VESLARC (VES Leadership and Research Centre) to acknowledge and encourage students who endeavor to make a difference in spite of unaccommodating circumstances. This year 09 students from the VES group of colleges received this much sought award. The award ceremony was held at the VESIT auditorium on the 15<sup>th</sup> October, 2016 on the occasion of the birth anniversary of the nation's beloved A. P. ### 14. AICTE-CII India Ranking:

As part of regular quality check, VESCOP had participated in prestigious AICTE (All India Council of Technical Education) –CII (Confederation of Indian Industries) best Industry-linked pharmacy institute (Degree) survey which was conducted at UK-India Tech Summit held at New Delhi. This summit was jointly inaugurated by Hon. Prime Minister Shri Narendra Modi and UK' PM Theresa May on 7th November 2016.

AICTE-CII, with the aim of fostering industry academia linkages, as well as promoting innovation and entrepreneurship among students, has since 2012 introduced the AICTE-CII annual awards. High levels of parameters are set for judging technical institutes. The yardstick comprised certain critical areas like faculty, placement, Curriculum, Research/ Consultation, Infrastructure and Governance. Based on the objective scores achieved by each institute, they were shortlisted for second stage of assessment and scrutiny by the Jury members from CII & AICTE.

Out of total 890 participating institutes in the category of Architecture, Pharmacy, Management and Engineering, 48 institutions were shortlisted for the second level of evaluation. Amongst them, in the category of Emerging Pharmacy degree institutions, there were 26 participating institutions and 5 of them were shortlisted for second level of evaluation, VESCOP being one of the five institutes. On scrutiny, the institute was placed in the platinum category. VESCOP was the only institution to receive platinum ranking in emerging pharmacy institutes category in the entire western zone (Maharashtra, Gujarat, Goa & Rajasthan). At national level, only 18% of the total participating technical institutions qualified to the platinum category. The national average score for all disciplines was 19.24, the average score of pharmacy discipline was 24.57 whereas VESCOP scored an impressive 51.57. The efforts made by VESCOP in establishing industry-connect was appreciated. This prestigious certificate was handed over by the Chairman of AICTE Prof. Anil Sahasrabudhe to the Principal of the college during India- UK Tech Summit.

Shri. B.L. Boolani, who is the trustee-in-charge of the institution, has been the driving force for motivating to establish the industry linkages and promoting research. His guidance and proactive support by the VES Management has created very conducive environment in the institution leading to establishing high goals.

The college is headed by Principal Dr. Supriya Shidhaye, who is an eminent academician and a competent administrator having more than 2 decades of experience in Pharmacy academics. She has been very proactive in increasing industrial collaborative Research and increasing industrial exposure of the students. This ranking has been the fruit of her leadership and efforts
