18) JOURNAL CLUB ACTIVITY

JCA- 'JOURNAL CLUB ACTIVITY' is an initiative that has been undertaken at VESCOP since the academic year 2016-17.

This year VESCOP embarks its journey to the second JCA activity which is conducted for undergraduates while they are in third year of bachelors in pharmacy program as per the schedule.

JCA is an activity whereby the class is divided into groups of students and is allowed to choose any topic they want in guidance of the mentor. They are asked to undergo a literature survey by referring to reputed International and Indian journals and present their power point presentation to the class.

VES COLLEGE OF PHARMACY

Hashu Advani Memorial Complex, Behind Collector Colony, Chembur (E), Mumbai - 400 074

Evaluators in the form of teachers apart from the guide are allotted and are attending this session for judging their technical knowledge, presentation skills, and team spirit. This is followed by a brainstorming Question Answer session where in refining their communication skills and in depth knowledge is assessed. The theme is to think, find, execute, and learn.

This activity attempts to shower light on how certain objectives that VESCOP wants to attain and inculcate in its undergraduate students can be achieved via research and review aspect. This activity has helped students on how to conduct a meaningful review of the current research and ways to refer high index factor research papers in reputed journals. In this era when such activities with many novel techniques are known, making a student refer to such reputed journals helps them in figuring out the rationale and intellectual capability. This also boosts their thinking ability and builds interest in the subject of research area. The students who aspire to be scientists, can carry out a meaningful research work later with an unambiguous aim by performing a proper literature survey from esteemed journals.

Student presented research articles on the following topics

Design, characterization and in vitro evaluation of linalool-loaded solid lipid nanoparticles as potent tool in cancer therapy

Microemulsion based Hydrogel formulation of Penciclovir for topical delivery

Dual functionalized liposome-mediated gene delivery across triple co-culture blood brain barrier model and specific in vivo neuronal transfection

Formulation strategies for effective delivery of Primaquine

Impact of nanostructured lipid carriers on dapsone delivery to the skin: in vitro and in vivo studies

Theranostic nanoparticles for tumor-targeted imaging and programmed photoactive therapy

PROTON RADIOTHERAPY IN MANAGEMENT OF PEDIATRIC BASE OF SKULL TUMORS

PREPARATION AND CHARACTERIZATION OF HERBAL NANOFORMULATION CONTAINING ANDROGRAPHIS PANICULATA EXTRACT

Evaluation EVALUATION OF ANTIBACTERIAL ACTIVITY OF CUSCUTA REFLEXA ROXB.

Biochanin A improves insulin sensitivity and controls hyperglycemia in type 2 diabetes

In vitro delivery of anti-breast cancer agents directly via the mammary papilla (nipple)

Preparation and evaluation of captopril loaded gastro-retentive zein based porous floating tablets

Monitoring antiangiogenesis of bevacizumab in zebrafish

Polyvinyl alcohol degradation by Bacillus cereus RA23 from oil sludge sample

Formulation And Evaluation Of Antiaging Cream Containing Magniferin

Cost-effectiveness of a Stepwise Approach vs Standard Care for Diabetes Prevention in India

Potential effects of pharmaceuticals and their residues in aquatic environment

Data of antibacterial activity of plant leaves crude extract on bacterial isolates of wound infections

Folic Acid-Chitosan Conjugated Nanoparticles for Improving Tumor-Targeted Drug Delivery

Encapsulation of temozolomide in a tumor-targeting nanocomplex enhances anti-cancer efficacy and reduces toxicity in a mouse model of glioblastoma

Hyaluronic acid-serum albumin conjugate-based nanoparticles for targeted cancer therapy

Youth leading the way with Ms Bhagyashree Parab

Assistant Professor in Pharmacy
Dr. Bhagyashree Parab, M.Pharm,
Ph.D., D.Phil., FICP, FICP, FICP

Q1: Since your area is pharmaceuticals, would you like to tell us how you work and grow in this field and what all different areas you explore?

ANS: Pharmaceuticals is a vast area. I would say, for post-graduation after B.Pharm, then after graduation when you enter the job market there is a lot of research and production in the pharmaceutical area. Pharmaceuticals deals with a variety of drug delivery systems and their designing. Designing delivery systems is a vital part of research in pharmaceuticals. Consequently, they also lay a lot of opportunities when it comes to personal or professional growth. If you take a career interest in that area, but I would say that if you want to pursue education after B.Pharm, this is one of the most growing fields.

Q2: Throughout your course of work with and about the novel drug delivery systems, what garnered your interest?

ANS: I have worked on Novel Drug Delivery systems in my Masters and am currently working with the same in my Ph.D. research. The focus has shifted from polymer to lipid based drug delivery system. The motive of the research is to develop

something safe and effective.

The polymer is a foreign molecule. So whenever it is injected into the body it is bound to show side effects. So efforts were taken to design something that will pass to the body freely.

During the course of it, lipid emulsions, liposomes, which are used as carrier vehicles show least side effects as they form a vital part of our body and will show biocompatible activity. Lipid based drug delivery system has various subtypes and I have worked upon SNEDDS (Self-Nanoemulsifying Drug Delivery System) and I'm working on Solid Lipid Nanoparticles (SLN) and Nano-structured Lipid Carrier (NLC).

After oral administration, SNEDDS undergoes self-emulsification process to form nanoemulsified drug delivery system in presence of water in stomach. Basically a powder or a granule is being administered, which will convert into a nanoemulsion and show its effect. This is a brilliant concept of administering drugs as what nature brought my eye and garnered my interest in it.

Q3: In which areas are you involved in research, at the moment?

ANS: I'm working under the guidance of Dr. Bhagyashree Parab in the area of Cancer research. We are developing a drug delivery system for a herbal drug which is being used to treat cancer. We're working on proving it to have anti-cancer properties. Because a natural cancer will show the most therapeutic effect and least side effects on healthy cells, making it desirable for the patients.

Q4: What new technologies are available for efficient drug release or promoting new drug delivery systems?

ANS: As mentioned earlier pharmaceuticals is all about the drug delivery technologies. As far as new technologies are concerned, I would say targeting the delivery system to the affected area is a lot useful upon right now. Nanomedicine targeting agents are being used and being used.

When tumor cells are growing they have a high metabolic requirement as compared to normal cells and consequently the receptors for such nutrients are over-expressed.

So, the idea that is being conceived, will easily be taken up by the tumor cells to further requirements.

Once after incorporating these anti-cancer systems, they can reach the tumor cells where they take up the acid and as a result of this, the nanoparticles will release up which causes the drug and will kill the cells eventually. Since this is a part of our body, it is less compatible as well.

Apart from this, numerous other receptors are over-expressed on tumor cells that the researchers are trying to identify. They're performing isolation or gene sequence and trying to produce the receptors and design the targeting molecules accordingly.

Another one is, a magnetic delivery system where they inject magnetic particles with delivery systems in the body and from outside they use a magnet to move the body to wherever there's a tumor, the delivery system will get directed there and will effectively release the drugs.

Q5: Compared to the primary and secondary spreading during which SARS-CoV-2 was transmitted from animal to human and from human to human, has the transmission rate increased and has the pathogenicity decreased?

ANS: Transmission rate has increased from animal to human. As we see now, over the months, the total cases have been decreasing despite opening up various aspects of social life and businesses. When there was a lockdown, the cases kept growing but after opening up, even though people resumed their work, the cases kept decreasing. I would say that the pathogenicity is decreasing owing to the immunity that people have developed over a time, where they are immune after exposure to such infections.

Q6: What challenges do you feel that the field of nanotechnology will face in the future and what can we, as pharmacists, do to contribute towards it?

ANS: Delivery controlled resistance is one of the most difficult challenges that we have to face. Molecular community is advancing very fast. Since we are using stronger antimicrobial agents, the same entity is getting genetically modified and developing resistance. Consequently, they're growing stronger. I would say, the way we use antimicrobial agents, without rules and regulations, is a contributing factor to it. The protocols regarding how much, which and in what

48

situation, to use the agents should be stringent. As pharmacists, we should guide the patients regarding the appropriate usage of the antibiotics and ensure compliance about the same.

Q7: Which are the current applications of nanotechnology in pharmaceutical formulation?

ANS: Nanotechnology has widespread applications in formulation. The most important of all is solubility enhancement. Over some time, newer molecules are being developed and a trend is observed that they are water-insoluble. There are BCS classes of molecules, BCS class I molecules are water-soluble and water-soluble than II molecules are water-insoluble but lipid soluble. So, we are getting to see more of Class II drugs.

Also, for water is an important aspect of the solubility of drugs in the body. Nanotechnology aids the break down the particle in a nano form, in which the drug gets released.

Another application is designing a sustained-release system for cancer, we have a drug which is being incorporated into the lipid nanoparticle, which then is injected intravenously and circulated in the entire body. Before administration, it will keep on circulating based on its size. So, it will begin, the macrophages will eat them up, but if it is in a nano form, it will escape the first line immunity barriers and will continuously circulate and release the drug.

Polymer and lipid both help to develop a sustained-release system which can reduce the frequency of administration (injection) as in the case of cancer patients.

One more example is designing targeted systems, around the tumor area, there is angiogenesis (formation of a network of blood vessels). These vessels have wider

endothelium (formation of a network of blood vessels). These vessels have wider openings and hence the nanosized particles can easily squeeze themselves out of the wide openings. This is known as Enhanced Permeation and Retention (EPR) effect. This suggests that it will easily permeate the tumor area due to angiogenesis but will not get eliminated because the lymphatic drainage is blocked due to a lot of waste and they can't form a dense network, causing the drug molecules to get trapped in the tumor. These systems prove to be advantageous as they're not rigid and can be easily modified and customized.

ARRANGEMENT OF TERMS

I] ADMISSION STATUS

Centralized Admission Process (CAP) is followed for admission to F. Y. B. Pharm on the basis of MHT-CET score, H. S. C. score (for minimum eligibility). F. Y. M. Pharm. Students are admitted on the basis of GPAT scores as per the rules laid down by the State CET Cell, Govt. of Maharashtra. Separate CAP round was held for directly admitting D. Pharm students to S. Y. B. Pharm. The total numbers of students admitted in each class were as follows:

CLASS	Student Strength
F. Y. B. Pharm.	100
S. Y. B. Pharm.	96
T. Y. B. Pharm.	68
Final Y. B. Pharm.	64
F.Y.M.Pharm. (P+QA+PC)	36 (15+15+06)
S.Y.M.Pharm. (P+QA+PC)	29 11+14+04)

FACULTY STRENGTH

1. No. of faculty members: 25
2. No. of faculty members with PhD: 9
3. No. of faculty members pursuing PhD: 12

VISITING FACULTY

For the following subjects, visiting faculties have been appointed during the A.Y. 2019-20

FIRST TERM AND SECOND TERM	
First Term	No Visiting Faculty (07)
	Mrs. Gayatri Aggarwal (Pharmacology III)
	Mrs. Ramalakshmi Anand (Pharmaceutical Jurisprudence)
	Mrs Pallavi Kharkar (Intellectual Property Rights) (IPR)
	Mrs Meena Shah (Regulatory Affairs)
	Mr Sunil Budhkar (Regulatory Affairs)
	Mrs Vedika Nihalani (Remedial Mathematics)
	Mr Jawahar Nidamboor (Communication Skills)
Second Term	No of Visiting Faculty (12)
	Mrs Meena Shah (Audits and Regulatory Compliance)
	Mr Sunil Budhkar (Pharmaceutical Validation)
	Mr Sunil Patil (Audits and Regulatory Compliance, Pharmaceutical Manufacturing Technology)
	Mrs. Ramalakshmi Anand (Human Anatomy and Physiology II)
	Mrs. Gayatri Aggarwal (Pharmacology I)
	Mrs Rajashree Date (Computer Applications in Pharmacy)

V] ANNUAL LECTURE SERIES –

VES College of Pharmacy has taken up a new initiative and started Annual Lecture Series in Pharmaceutical Technology” from 2017. The main aim behind this is to empower the pharmaceutical Scientist and promoting awareness among the public and policymakers of the important role that the pharmaceutical sciences play in health care and also trigger interest in the pharmaceutical sciences as a career choice for young graduates. This year the theme was “Regulatory Challenges New Technology Adoption for Pharmaceutical Dosage Forms.” and the Speaker was Dr Parizad A Elchidana Principal Technical Consultant-Pharma, ACG Worldwide, Mumbai-21. This activity was conducted on 27th Aug 2019.

VII CHEMTASTIC 2019

Chemtastic-4 2019 was organized on 27th July 2019 under the convenorship of Prof. Rakesh Somani and organized by Department of Pharmaceutical Chemistry. Various fun-filled and informative events were organized with the help of Rotaract Club and Faculty members of VESCOP. The competitive events included Chem-o-quiz, Chem Skit, Chem-o-model, Chem-o-logo, Chem-o-face, Chem-o-doodle, Chem-in-motion and Chem-o-comedy. Around 150 students from various academia and disciplines participated enthusiastically in these activities. Dr. Anil K. Singh was invited as chief guest and Dr. Vijay Gadgil was guest of honour for valedictory function. Judges for the event were also invited from academia and Industry.

VIII] Women Development Cell Activity:

1. WDC cell of the college organised gender sensitization activity on 21 st January 2020. The activity was conducted by VESLARC. Two separate sessions were conducted, one for girls and one for boys. F. Y. and S. Y. students attended this activity entitled, Swaman. Dr. Piya Mukherjee in her session for girls talked about self esteem and self respect. Ms. Preeti Vasudevan in her talk for boys explained how a person should accept who he/she is and accept their flaws. The session was attended by about 85 girls and boys.

2. WDC cell of VES College of Pharmacy organized the seminar on Gender Sensitization on 7th March 2020. PoSH (Prevention of Sexual Harassment). The session was delivered by Dr. Piya Mukherjee, Director, VESLARC. The session created awareness regarding crimes like gender based abuse. It also covered statistics related to huge cases, causes and made the participants aware about the government's initiative and their quick actions. The session also discussed various acts like POSCO act 2012, POSH act, DISHA act. About 46 teaching and support staff attended the session. The session was very effective and well received by the audience.

3. International women's day was celebrated at Vivekanand Education Society's College of Pharmacy on 9th March 2020. The event focused on how important it is to empower women. The event consisted of a presentation and a quiz. This event highlighted how important it is to uproot inequality that women face in every walk of life. The event paid attention to
 - i. Gender discrimination
 - ii. Women education
 - iii. Women abuse

IX] WEBINAR SERIES:

IQAC, VESOP organised a three 3 Days webinar series on "Understanding NAAC Accreditation Process-An Expert opinion" between 20th to 22nd May 2020. This webinar was delivered by Founder Member of IQAC Cluster India Mr. Peeyush Pahade to acquaint participants on NAAC framed quality education process, benchmarks and accreditation benefits. NAAC has identified a total of seven criteria to serve as the basis of its assessment procedures, amongst them Governance, teaching learning pedagogies, and faculty contributions are significant contributors. Mr. Pahade deliberated on these criteria in depth. More than 500 participants were benefited from this interactive webinar series. Due to all-encompassing experience of the speaker in this field, high interest levels of the participants and fruitful doubt solving session, the webinar series was successfully accomplished.

XX] ACTIVITIES OF INSTITUTION'S INNOVATIVE COUNCIL (IIC2.0)

VES College of Pharmacy established the Institution's Innovation Council which is a recognized unit of MHRD's Innovation Cell. The council was flagged by MHRD's Innovation Cell on 12th Nov 2018. The objective of this council is to promote entrepreneurial skills in students and motivate and train them to become successful entrepreneurs. The initiative involves conducting workshops and participating in different Hackathon events, that will not only boost the confidence of students but will also help to create a healthy environment for innovation.

The council followed the calendar of activities prescribed by the MHRD for 2018-19. This has brought an accolade for college in the form of Four-star rating by the evaluation committee of the MHRD

VESCOLP is the only Pharmacy Institute in Western region with a 4-star rating. We are among 4 of 40 Pharmacy institutes and among 138 of 888 Technical institutes honoured with such a high score.

PHO activities

XVIII] JOURNAL CLUB ACTIVITY

It is an initiative that has been undertaken at VESOP since last four years. This year VESOP embarks its journey to the Fifth JCA activity which is conducted for undergraduates while they are in third year of bachelors in pharmacy program as per the schedule. These marks are directly correlated to one of the activity based system in NBA thus creating its importance and attainment of the course curriculum and program by review and research aspect.

JCA is an activity whereby the class is divided into groups of four students each and is allowed to choose any topic they want in guidance of the mentor. They are asked to undergo a literature survey by referring to reputed International and Indian journals and present their power point presentation to the class. Evaluators in the form of teachers apart from the guide are allotted and are attending this session for judging their technical knowledge, presentation skills, and team spirit. This is followed by a brainstorming Question Answer session where in refining their communication skills and in depth

VES COLLEGE OF PHARMACY

Hashu Advani Memorial Complex, Behind Collector Colony, Chembur (E), Mumbai - 400 074

knowledge is assessed. The theme is to think, find execute, learn. This activity attempts to shower light on how certain objectives that VESCOP wants to attain and inculcate in its undergraduate students can be achieved via research and review aspect. This activity has helped students on how to conduct a meaningful review of the current research and ways to refer high index factor research papers in reputed journals. In this era when such activities with many novel techniques are known, making a student refer to such reputed journals helps them in figuring out the rationale and intellectual capability. This also boosts their thinking ability and builds interest in the subject of research area. All students submit a summary of the conducted activity after each session. The students, who aspire to be scientists, can carry out a meaningful research work later with an unambiguous aim by performing a proper literature survey from esteemed journals.

Corruption is the use of unethical methods to get some advantage by others. It has become one of the big factors of obstructing the development of the individual and country. On occasion of Vigilance Awareness Week, the Students' Council of VESCOP along with the Union bank of India organized an anti-corruption campaign. This event was hosted by Anushka Rajesh from Final Year. It started off with a pledge against corruption, which was then followed by two activities: A Debate, the topic of which was "Can corruption be fought by enactment of laws alone?" and a Poster Making Competition based on Corruption and Swachh Bharat. IN the audience were students from the First Year, the participants and a few Council Members. The winners for Debate were Atreya Karandikar (TY) who received the First Position and Rushabh Sheregar (LY) who came in Second. Umang Ashar (SY) was awarded First Prize for Poster, Kishan Choudhary (TY) came in second, and Nikeeta Palande (TY) came in Third.

Corruption starts with the person itself, corruption is not only on money side but it is in various fields: corruption in thinking, political and professional, administrative and list goes on. We need to work on every field and the major source of transformation is Education, so start educating the child with ethical and moral values involved.

XXI] BRIC organized workshop on "Funding Channels for Academic Entrepreneurs, Business Aspects for Technopreneurs and Success Stories"

Make in India is a major new national program aimed to foster innovations and build best-in-class manufacturing infrastructure in India. To make this dream a reality, it is necessary to orient present generation and academia towards the concept of entrepreneurship, and qualities of successful entrepreneurs. Biotechnology Industry Research Assistance Council (BIRAC) is a not-for-profit Public Sector Enterprise, set up by Department of Biotechnology (DBT), Government of India, as a new industry-academia Interface Agency with a vision to foster innovation and entrepreneurship.

With a vision to foster interest in entrepreneurship amongst academicians as well as students of VES institutes, a workshop was organized by BIRAC Regional Innovation Centre (BRIC) in collaboration with IKP Hyderabad and VES on "Funding Channels for Academic Entrepreneurs, Business Aspects for Technopreneurs and Success Stories". The workshop was conducted on 2nd December 2017, between 3 pm to 5 pm at VES Institute of Management.

The theme of the workshop was largely successful in creating interest amongst VES students as well as faculty member, who attended the same in large numbers. There were 220 registrations for the workshop with maximum student participation. VESOP was also successful in reaching out to other pharmacy colleges with about 30% registrations from other Pharmacy institutes.

The speakers for the workshop were eminent personalities from IKA Knowledge Park, namely, Dr. Deepanwita Chattopadhyay, Chairman and CEO, IKP Knowledge Park, Dr. Ramjee Pallela, Chief Manager, IKP Knowledge Park, and Dr. Ranajit Sen, Start-up mentor, IKP Knowledge Park. All of them were effective in enlightening the audience with the different funding programs available for entrepreneurs, and in understanding business aspects for commercializing a product.

XXIV] JOURNAL CLUB ACTIVITY

It is an initiative that has been undertaken at VESCOP since last four years. This year VESCOP embarks its journey to the Fourth JCA activity which is conducted for undergraduates while they are in third year of bachelors in pharmacy program as per the schedule. These marks are directly correlated to one of the activity based system in NBA thus creating its importance and attainment of the course curriculum and program by review and research aspect.

JCA is an activity whereby the class is divided into groups of four students each and is allowed to choose any topic they want in guidance of the mentor. They are asked to undergo a literature survey by referring to reputed International and Indian journals and present their power point presentation to the class. Evaluators in the form of teachers apart from the guide are allotted and are attending this session for judging their technical knowledge, presentation skills, and team spirit. This is followed by a brainstorming Question Answer session where in refining their communication skills and in depth knowledge is assessed. The theme is to think, find execute, learn. This activity attempts to shower light on how certain objectives that VESCOP wants to attain and inculcate in its undergraduate students can be achieved via research and review aspect. This activity has helped students on how to conduct a meaningful review of the current research and ways to refer high index factor research papers in reputed journals. In this era when such activities with many novel techniques are known, making a student refer to such reputed journals helps them in figuring out the rationale and intellectual capability. This also boosts their thinking ability and builds interest in the subject of research area. All students submit a summary of the conducted activity after each session. The students, who aspire to be scientists, can carry out a meaningful research work later with an unambiguous aim by performing a proper literature survey from esteemed journals. The activity is headed Dr.Gaurav Doshi under the able guidance of Dr. Supriya Shidhaye.

IX] CAMPUS TO CORPORATE TRANSITION PROGRAMME

Campus to Corporate (C2C) Transitions – “Creating Enabling Attitude”

Making a transition from Campus to Corporate life proves to be a major stumbling block for many new hires. There are unspoken nuances and social norms that many graduates are completely unaware of and adjusting to a professional environment can be extremely challenging as also traumatic to a few. Employability requires three key ingredients of competency – knowledge, skills and attitude – knowledge, as you notice is just one component. While we have been doing a fairly good job on the knowledge front, but the gap is mostly observed in areas of technical skills development including enhancing soft skills abilities of the students. The need for campus to corporate originates from the dynamic environment that we operate in, though our education system prepares us thoroughly & intellectually, the work challenges require various business skills that are not part of curriculum. VESCOP has designed its Campus to Corporate training program to boost the confidence of the freshers and provides them tools like goal setting, team work and stress management.

While Knowledge and Skills will help students to become employable but without an enabling attitude, the employability would be a short lived experience and hence a lot of focus on “Creating Enabling Attitude” must be given. It is the ‘Attitude’ which drives ‘Knowledge’ and ‘Skills’ for each individual.

VESCOP’s Campus to Corporate program has been created with an objective of empowering students with tools for improving their personal and professional excellence, leading to improved employability and professional effectiveness.

C2C Transition program is conducted in the following avenues.

- A. **Vidyan Manch** – Industry- Academia/Student interaction.
- B. **Disha** – Career Avenues after B. Pharm.
- C. **Talkathon** – Student Alumni interaction
- D. **Atmavikas** – Soft Skill Development

A] “VIDNYAN MANCH”:

VESCOP gives utmost importance to practical exposure and interaction to its budding professionals. For this, eminent speakers from the top industry are invited to impart best educational light and enlighten our students with their ideas and experiences.

The fascinating lectures on various topics boost the confidence of new aspirants as the lectures ends with motivating question and answer sessions. Distinguished guest lecturers speak on various important topics that prove beneficial for them while choosing the right career paths.

CHEMTASTIC 2016: Making Chemistry Fantastic.

It has been matter of great concern for all chemistry teachers that the interest level of students in this branch of science has been reducing day by day, for the varieties of the reasons. Hence it is imperative to adopt innovative methods or techniques by which the student community shall get attracted towards Chemistry again and the glory of the subject can be maintained. As small attempt to achieve this goal, the VES College of Pharmacy, Chembur has organized a unique event called as CHEMTASTIC 2016 which includes Chemistry based fun filled events, on 23rd July 2016. A series of events have been planned for Undergraduates and Post graduate students which will boost their imagination power, artistic talent and of course chemistry interest. It focuses on different areas of chemistry and bringing out the love for the subject via brilliantly designed activities namely CHEMSKIT (It gives the students to express their thoughts and understanding of chemistry by acting), CHEMBUZZ (expertly designed chemistry quiz competition), CHEM-IN- MOTION (describing day to day chemistry to non-chemistry background made easier by innovative videos), CHEM-O-CHROME (have fun with chemistry with amazing colors in the form of Rangoli), PROCREATION (Model making or working reaction focusing on the theme of the event) which will test student's aptitude and their knowledge. The Chief Guest for this event is Dr. A. K. Tyagi, Renowned Senior Scientist from Chemistry Group of Bhabha Atomic Research Centre. Alluring Cash Prizes amounting to the tune of 25,000 for the winners has been declared. The event is attended by more than 150 participants coming from the southern tip of Konkan to the northern part. Students from Chiplun, Palghar and Navi Mumbai have thronged into numbers to participate in this unique event. The event is the brain child of Dr. Rakesh Somani, Professor and HOD, Dept of Pharmaceutical Chemistry, VES College of Pharmacy, who was also the convener of the event.

B] "DISHA"

Choosing a right career option is the most vital decision in everyone's life. Students may go through a dilemma of choosing a career after completing their graduation. Apart from the top paying and common career options such as Production, QA, QC, Research, Marketing etc., numerous other options are available in the field of pharmacy. The choice of a career depends on the job prospects of the field and most certainly the interest of the candidate. In order to help our students to decide their career path after graduation, VESCOP conducts DISHA sessions, where experts from various fields are invited to interact and enlighten the students regarding various career opportunities available.

Following sessions were conducted in A.Y 2016-17

14. AICTE-CII India Ranking:

As part of regular quality check, VESCOP had participated in prestigious AICTE (All India Council of Technical Education) –CII (Confederation of Indian Industries) best Industry-linked pharmacy institute (Degree) survey which was conducted at UK-India Tech Summit held at New Delhi. This summit was jointly inaugurated by Hon. Prime Minister Shri Narendra Modi and UK' PM Theresa May on 7th November 2016.

AICTE-CII, with the aim of fostering industry academia linkages, as well as promoting innovation and entrepreneurship among students, has since 2012 introduced the AICTE-CII annual awards. High levels of parameters are set for judging technical institutes. The yardstick comprised certain critical areas like faculty, placement, Curriculum, Research/ Consultation, Infrastructure and Governance. Based on the objective scores achieved by each institute, they were shortlisted for second stage of assessment and scrutiny by the Jury members from CII & AICTE.

Out of total 890 participating institutes in the category of Architecture, Pharmacy, Management and Engineering, 48 institutions were shortlisted for the second level of evaluation. Amongst them, in the category of Emerging Pharmacy degree institutions, there were 26 participating institutions and 5 of them were shortlisted for second level of evaluation, VESCOP being one of the five institutes. On scrutiny, the institute was placed in the platinum category. VESCOP was the only institution to receive platinum ranking in emerging pharmacy institutes category in the entire western zone (Maharashtra, Gujarat, Goa & Rajasthan). At national level, only 18% of the total participating technical institutions qualified to the platinum category. The national average score for all disciplines was 19.24, the average score of pharmacy discipline was 24.57 whereas VESCOP scored an impressive 51.57. The efforts made by VESCOP in establishing industry-connect was appreciated. This prestigious certificate was handed over by the Chairman of AICTE Prof. Anil Sahasrabudhe to the Principal of the college during India- UK Tech Summit.

Shri. B.L. Boolani, who is the trustee-in-charge of the institution, has been the driving force for motivating to establish the industry linkages and promoting research. His guidance and proactive support by the VES Management has created very conducive environment in the institution leading to establishing high goals.

The college is headed by Principal Dr. Supriya Shidhaye, who is an eminent academician and a competent administrator having more than 2 decades of experience in Pharmacy academics. She has been very proactive in increasing industrial collaborative Research and increasing industrial exposure of the students. This ranking has been the fruit of her leadership and efforts
