XXI] BRIC organized workshop on “Funding Channels for Academic Entrepreneurs, Business Aspects for Technopreneurs and Success Stories”

Make in India is a major new national program aimed to foster innovations and build best-in-class manufacturing infrastructure in India. To make this dream a reality, it is necessary to orient present generation and academia towards the concept of entrepreneurship, and qualities of successful entrepreneurs. Biotechnology Industry Research Assistance Council (BIRAC) is a not-for-profit Public Sector Enterprise, set up by Department of Biotechnology (DBT), Government of India, as a new industry-academia Interface Agency with a vision to foster innovation and entrepreneurship.

With a vision to foster interest in entrepreneurship amongst academicians as well as students of VES institutes, a workshop was organized by BIRAC Regional Innovation Centre (BRIC) in collaboration with IKP Hyderabad and VES on “Funding Channels for Academic Entrepreneurs, Business Aspects for Technopreneurs and Success Stories”. The workshop was conducted on 2nd December 2017, between 3 pm to 5 pm at VES Institute of Management.

The theme of the workshop was largely successful in creating interest amongst VES students as well as faculty member, who attended the same in large numbers. There were 220 registrations for the workshop with maximum student participation. VESOP was also successful in reaching out to other pharmacy colleges with about 30% registrations from other Pharmacy institutes.

The speakers for the workshop were eminent personalities from IKA Knowledge Park, namely, Dr. Deepanwita Chattopadhyay, Chairman and CEO, IKP Knowledge Park, Dr. Ramjee Pallela, Chief Manager, IKP Knowledge Park, and Dr. Ranajit Sen, Start-up mentor, IKP Knowledge Park. All of them were effective in enlightening the audience with the different funding programs available for entrepreneurs, and in understanding business aspects for commercializing a product.

XXIV] JOURNAL CLUB ACTIVITY

It is an initiative that has been undertaken at VES COP since last four years. This year VES COP embarks its journey to the Fourth JCA activity which is conducted for undergraduates while they are in third year of bachelors in pharmacy program as per the schedule. These marks are directly correlated to one of the activity based system in NBA thus creating its importance and attainment of the course curriculum and program by review and research aspect.

JCA is an activity whereby the class is divided into groups of four students each and is allowed to choose any topic they want in guidance of the mentor. They are asked to undergo a literature survey by referring to reputed International and Indian journals and present their power point presentation to the class. Evaluators in the form of teachers apart from the guide are allotted and are attending this session for judging their technical knowledge, presentation skills, and team spirit. This is followed by a brainstorming Question Answer session where in refining their communication skills and in depth knowledge is assessed. The theme is to think, find execute, learn. This activity attempts to shower light on how certain objectives that VES COP wants to attain and inculcate in its undergraduate students can be achieved via research and review aspect. This activity has helped students on how to conduct a meaningful review of the current research and ways to refer high index factor research papers in reputed journals. In this era when such activities with many novel techniques are known, making a student refer to such reputed journals helps them in figuring out the rationale and intellectual capability. This also boosts their thinking ability and builds interest in the subject of research area. All students submit a summary of the conducted activity after each session. The students, who aspire to be scientists, can carry out a meaningful research work later with an unambiguous aim by performing a proper literature survey from esteemed journals. The activity is headed Dr.Gaurav Doshi under the able guidance of Dr. Supriya Shidhaye.
