ACADEMIC YEAR 2018-19

JOURNAL CLUB ACTIVITY

It is an initiative that has been undertaken at VESCOP since last five years. This year VESCOP embarks its journey to the 5th batch of JCA activity which has been conducted for undergraduates students perusing studies in T.Y.B.Pharm Program as per the schedule. These marks are directly correlated to one of the activity based system in NBA thus creating its importance and attainment of the course curriculum and program by review and research aspect.

JCA is an activity whereby the class is divided into groups of four students each and is allowed to choose any topic they want in guidance of the mentor. They are asked to undergo a literature survey by referring to reputed International and Indian journals and present their power point presentation to the class. Evaluators in the form of teachers apart from the guide are allotted and are attending this session for judging their technical knowledge, presentation skills, and team spirit. This is followed by a brainstorming Question Answer session where in refining their communication skills and in depth knowledge is assessed. The theme is to think, find execute, learn. This activity attempts to shower light on how certain objectives that VESCOP wants to attain and inculcate in its undergraduate students can be achieved via

research and review aspect. This activity has helped students on how to conduct a meaningful review of the current research and ways to refer high index factor research papers in reputed journals. In this era when such activities with many novel techniques are known, making a student refer to such reputed journals helps them in figuring out the rationale and intellectual capability. This also boosts their thinking ability and builds interest in the subject of research area. All students submit a summary of the conducted activity after each session. The students, who aspire to be scientists, can carry out a meaningful research work later with an unambiguous aim by performing a proper literature survey from esteemed journals. The activity is headed **Dr.Gaurav Doshi** under the able guidance of **Dr. Supriya Shidhaye**.

Academic Year
2017-18

JOURNAL CLUB ACTIVITY (2017-18)

It is an initiative that has been undertaken at VESCOP since last four years. This year VESCOP embarks its journey to the Fourth JCA activity which is conducted for undergraduates while they are in third year of bachelors in pharmacy program as per the schedule. These marks are directly correlated to one of the activity based system in NBA thus creating its importance and attainment of the course curriculum and program by review and research aspect.

JCA is an activity whereby the class is divided into groups of four students each and is allowed to choose any topic they want in guidance of the mentor. They are asked to undergo a literature survey by referring to reputed International and Indian journals and present their power point presentation to the class. Evaluators in the form of teachers apart from the guide are allotted and are attending this session for judging their technical knowledge, presentation skills, and team spirit. This is followed by a brainstorming Question Answer session where in refining their communication skills and in depth knowledge is assessed. The theme is to think, find execute, learn. This activity attempts to shower light on how certain objectives that VESCOP wants to attain and inculcate in its undergraduate students can be achieved via research and review aspect. This activity has helped students on how to conduct a meaningful review of the current research and ways to refer high index factor research papers in reputed journals. In this era when such activities with many novel techniques are known, making a student refer to such reputed journals helps them in figuring out the rationale and intellectual capability. This also boosts their thinking ability and builds interest in the subject of research area. All students submit a summary of the conducted activity after each session. The students, who aspire to be scientists, can carry out a meaningful research work later with an unambiguous aim by performing a proper literature survey from esteemed journals. The activity is headed **Dr.Gaurav Doshi** under the able guidance of **Dr. Supriya Shidhaye**.
